WETOP: cash desk and payroll

For the owner, administrator and cashier. Screenshots come from a test salon in Qatar; all names and amounts are made up.

1. Payroll: the month table
2. Pay terms and how often we pay
3. Payout for a day
4. Open the shift
5. Cash expense
6. Shift summary
7. Close the shift: payouts to specialists
8. "Pay" and "Not collected"
9. Count and close
10. Checklist

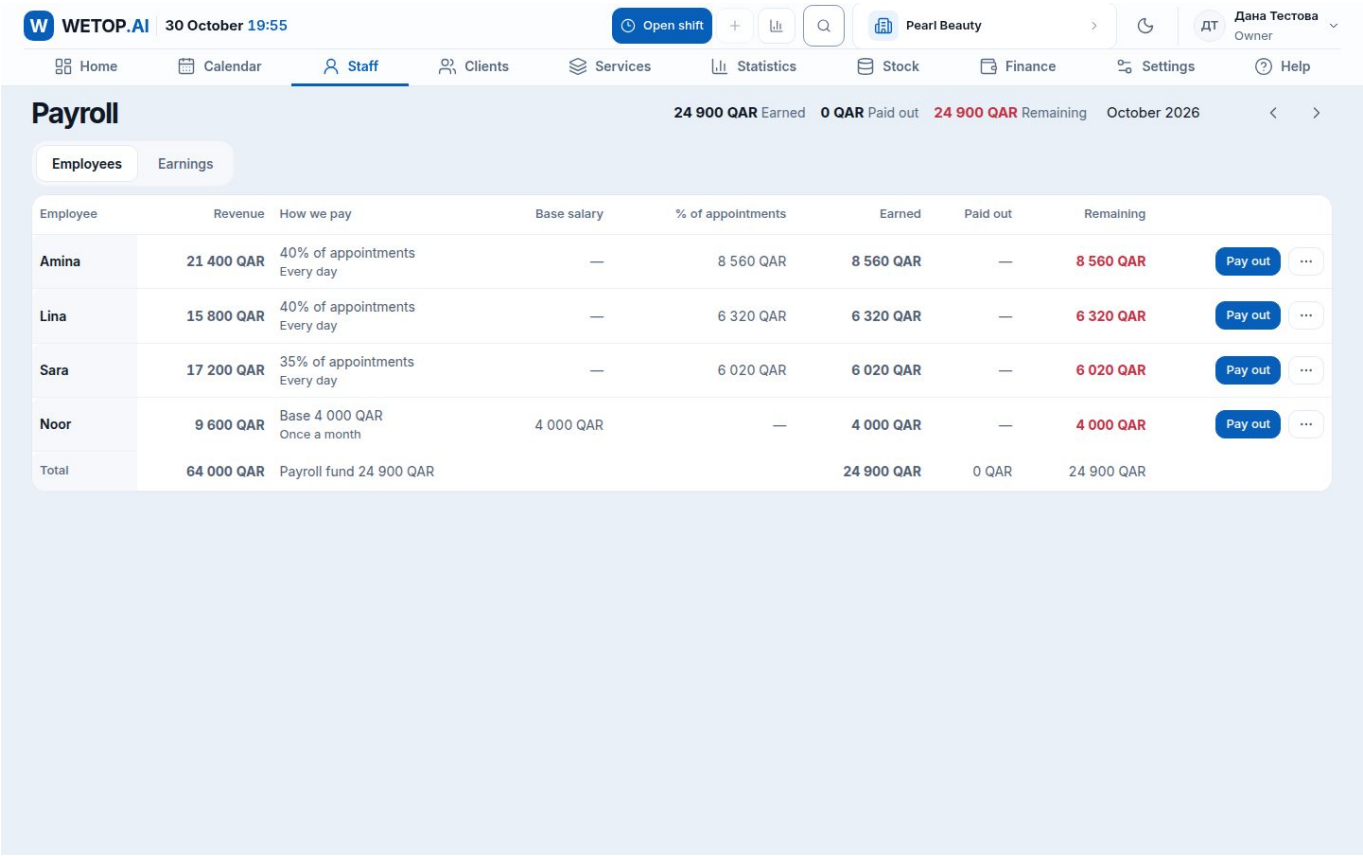

1. Payroll: the month table

• Open Payroll. Pick the month with the ‹ › arrows at the top; next to it: Earned, Paid out, Remaining.

• Each row shows Revenue (the percent is calculated from it), How we pay and, below it, how often: Every day, Once a week, Once a month.

• There are no bonuses. The Bonus and Deduction columns appear only if something was added that month.

• "Pay out" is on every row; "..." opens Pay terms.

2. Pay terms and how often we pay

1. "..." on the row → Pay terms.

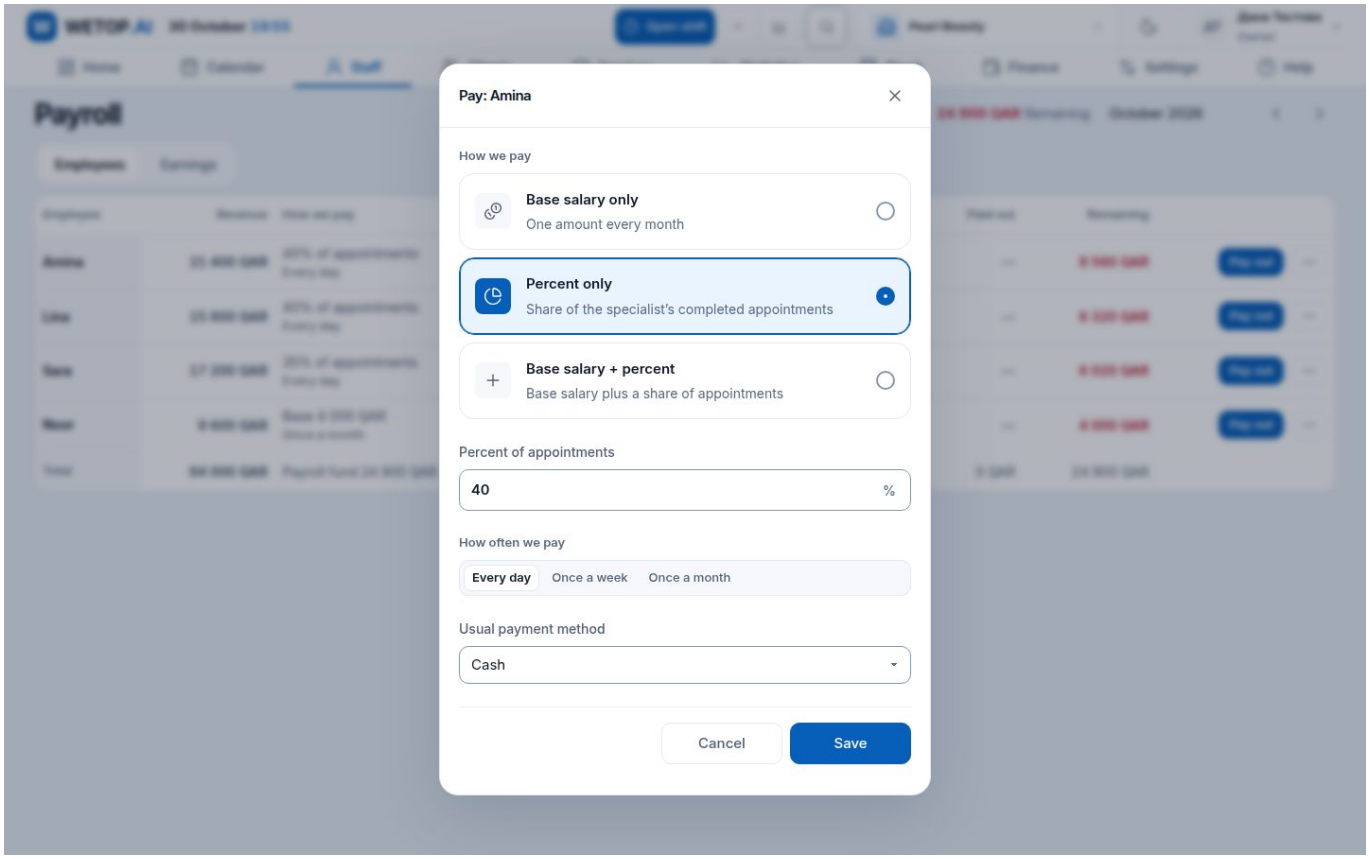

2. Choose Base salary only, Percent only or Base salary + percent and enter the amount or percent.

3. How often we pay: Every day, Once a week (choose the weekday) or Once a month.

4. Usual payment method: it is filled in automatically when you pay.

5. Click Save.

> Tip: If everyone is paid once a month, the shift closing window has no payouts section: pay builds up and is paid monthly.

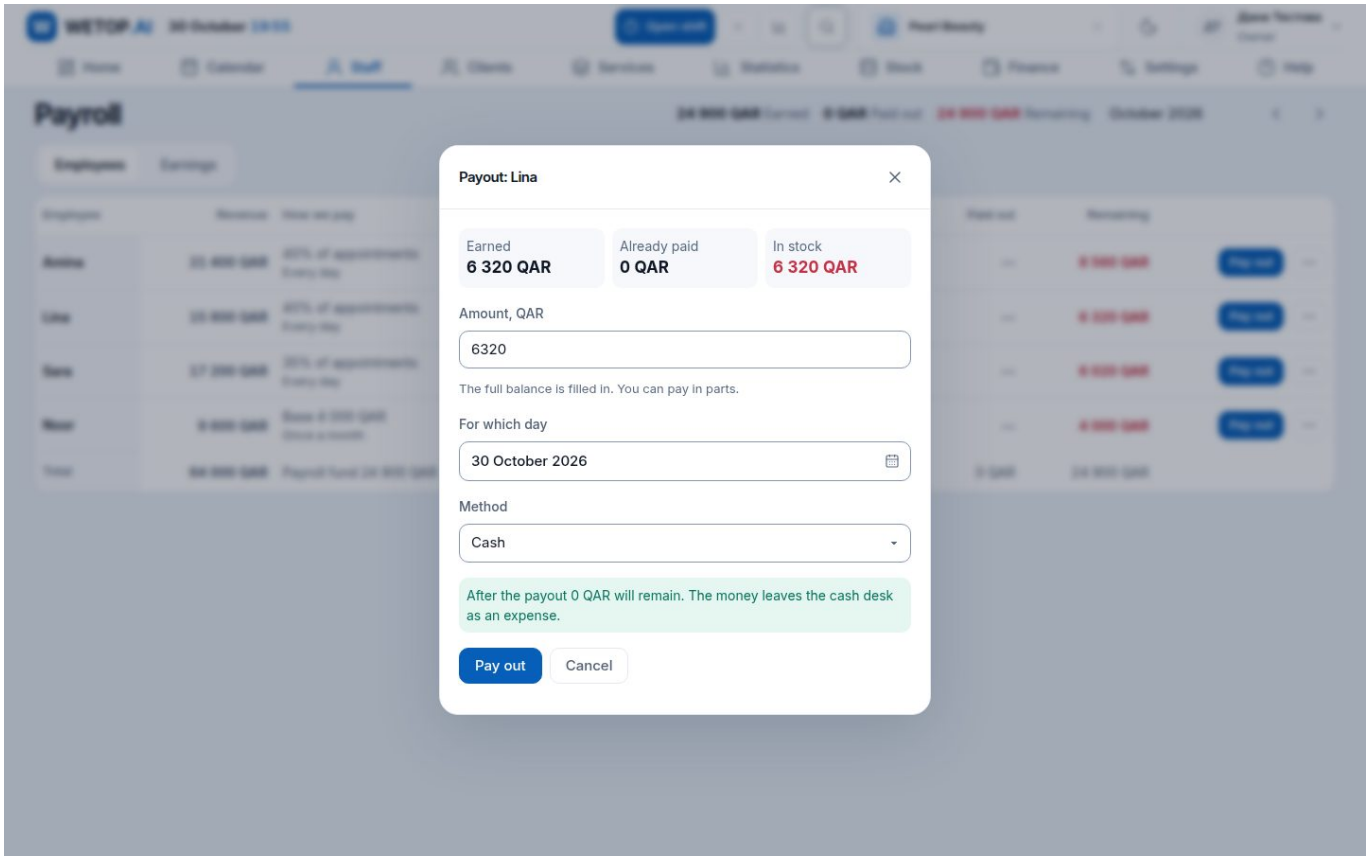

3. Payout for a day

1. "Pay out" on the row.

2. At the top: Earned, Already paid and the balance. The balance is filled in; you can pay in parts.

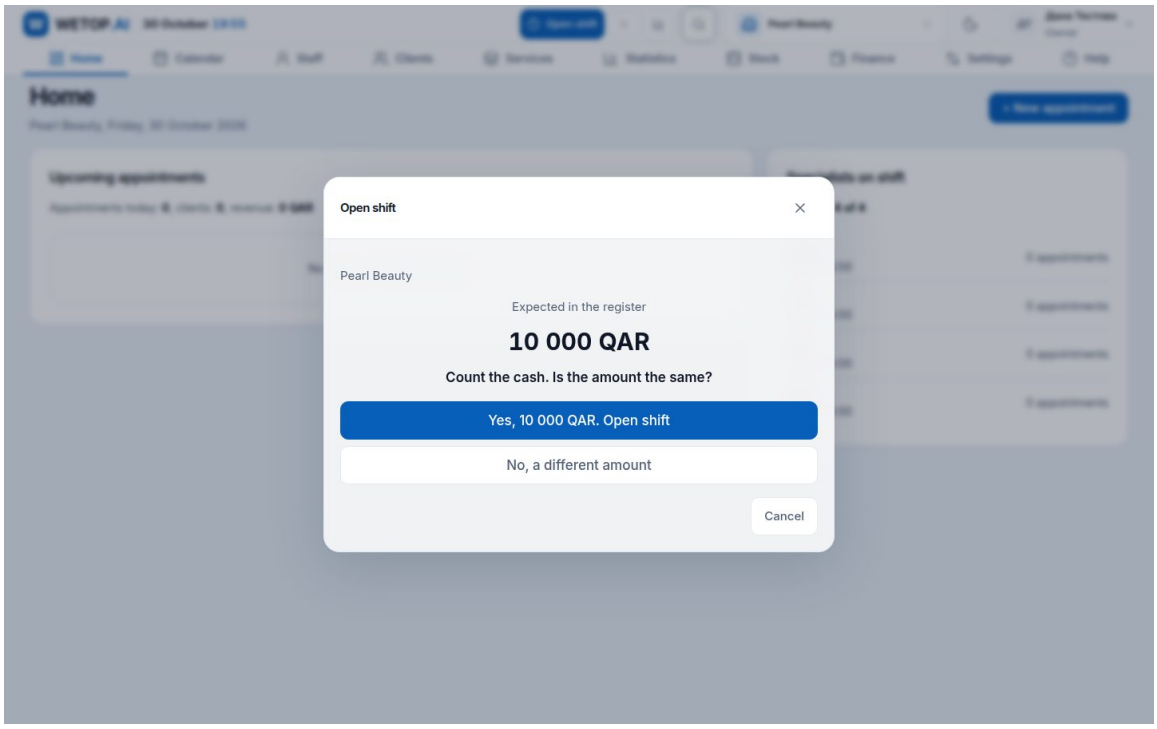

3. Daily and weekly payouts have "For which day": today by default, pick another day in the calendar.

4. Choose the method and click "Pay out". The money leaves the cash desk as an expense.

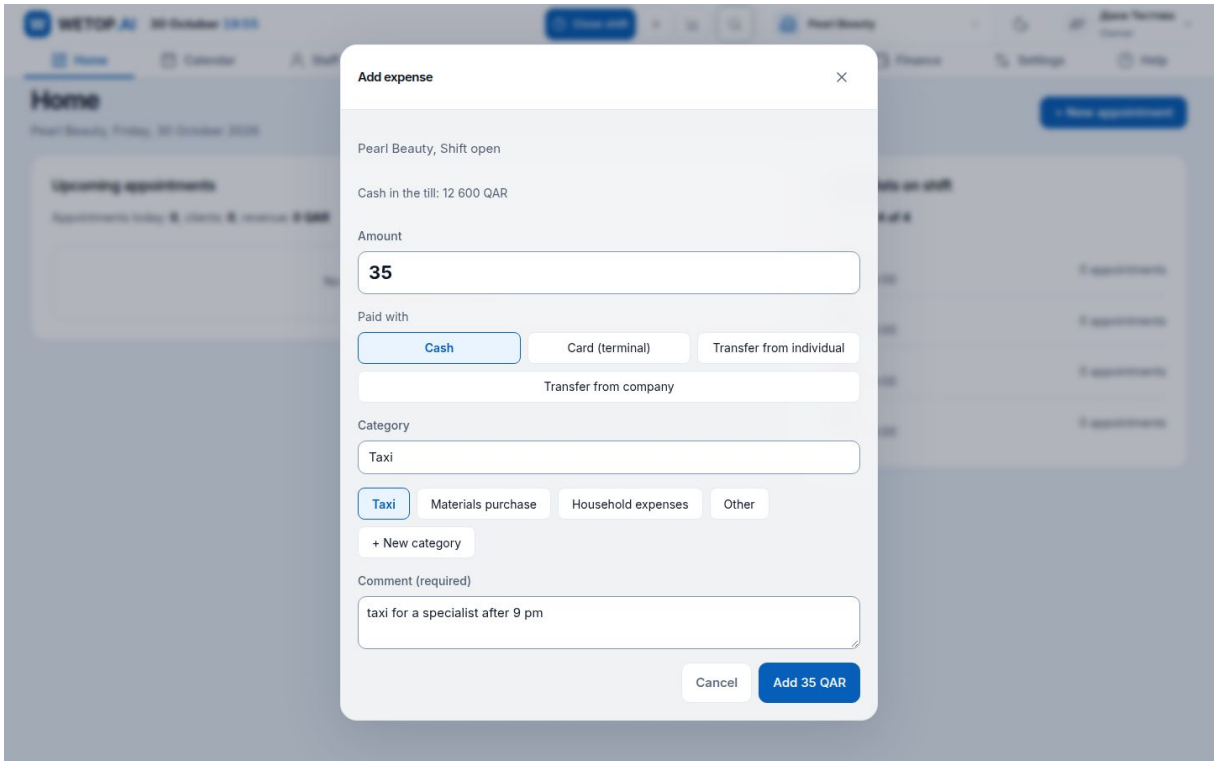

4. Open the shift

1. Blue "Open shift" button in the header.
2. Count the cash. If it matches: "Yes, … Open shift". If not: "No, a different amount".

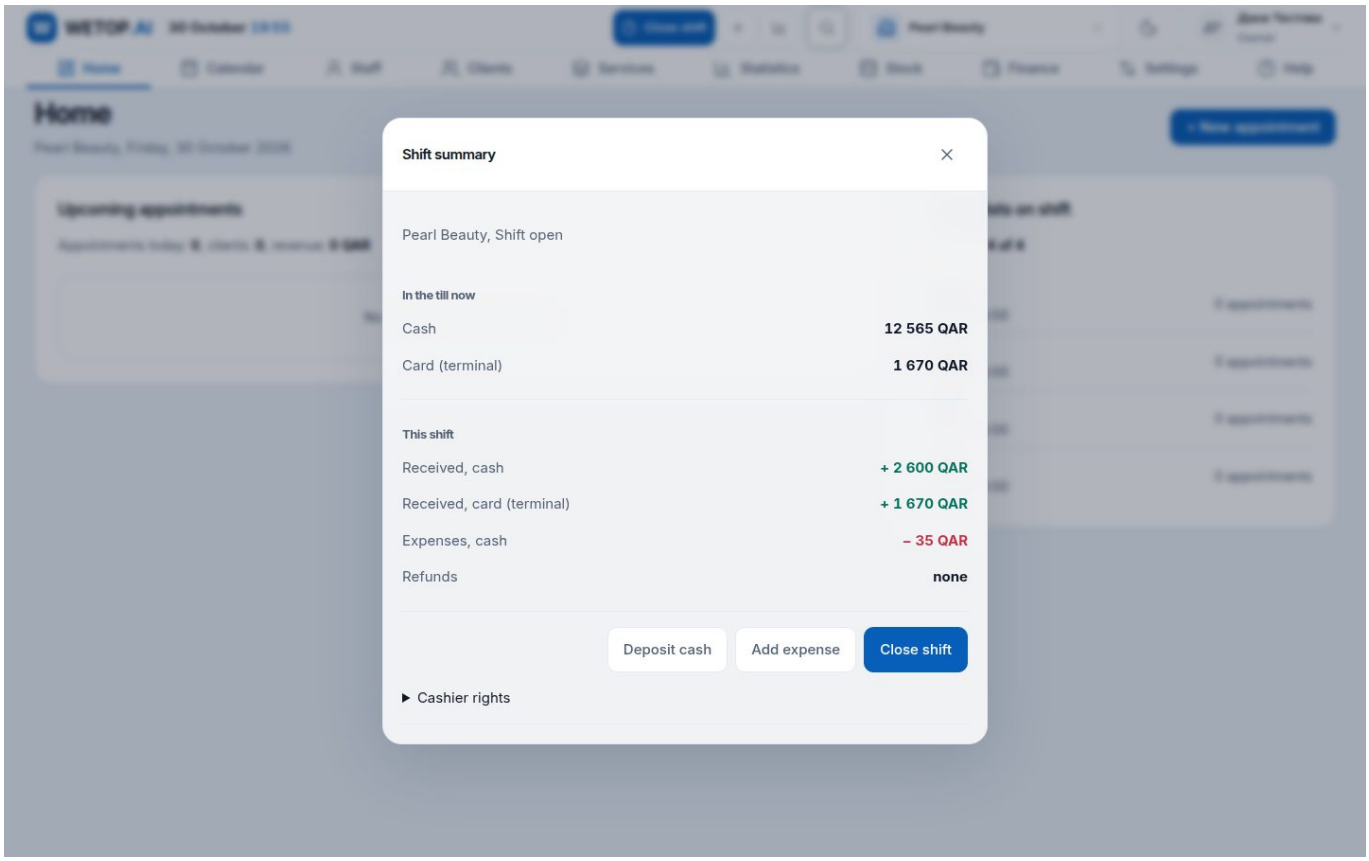

5. Cash expense

1. In the header "+" → Add expense.
2. Amount, method, category button.
3. A comment is required.
4. Click "Add …".

6. Shift summary

• "Shift summary" in the header: cash in the till by method, received, expenses and refunds for the shift.

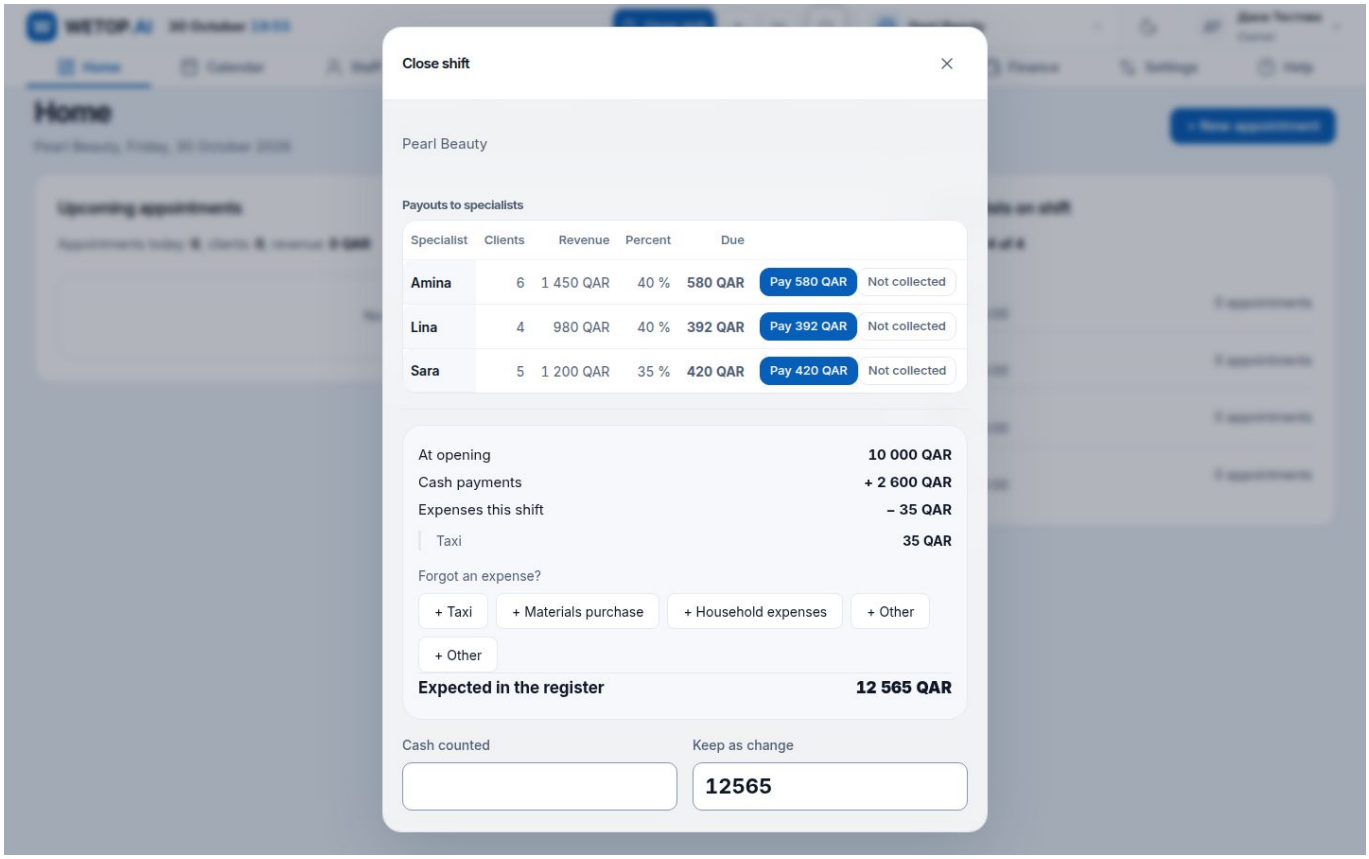

7. Close the shift: payouts to specialists

• Click "Close shift". First comes "Payouts to specialists": clients today, revenue, percent and Due.

• Only those whose payday is today are listed: Every day always, Once a week on their day. Monthly and salaried staff are not here.

• If nobody is due today, the section is not shown at all.

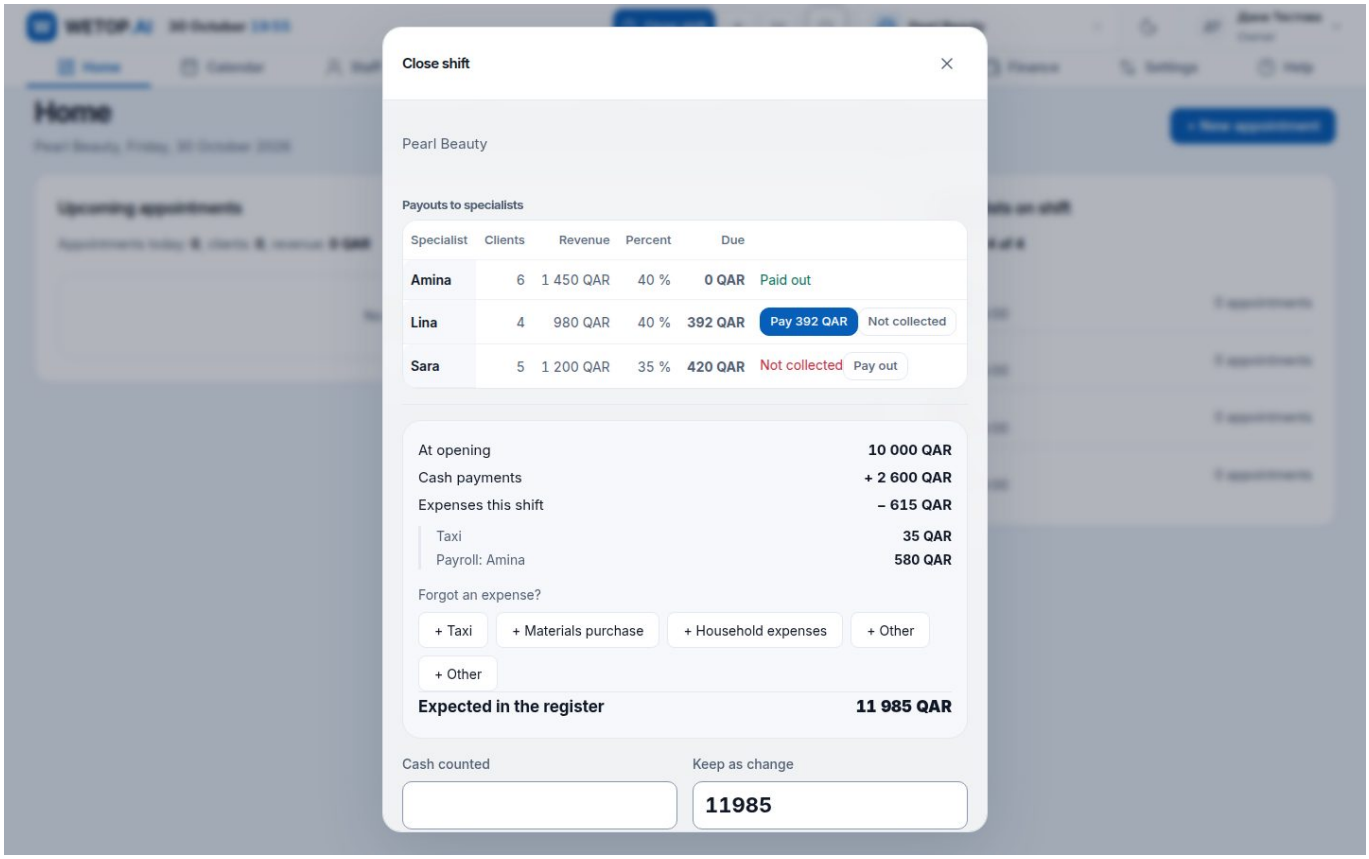

8. "Pay" and "Not collected"

1. Hand the money to the specialist and click "Pay {amount}". The row shows "Paid out", "Expected in the register" goes down, the payout appears in shift expenses.

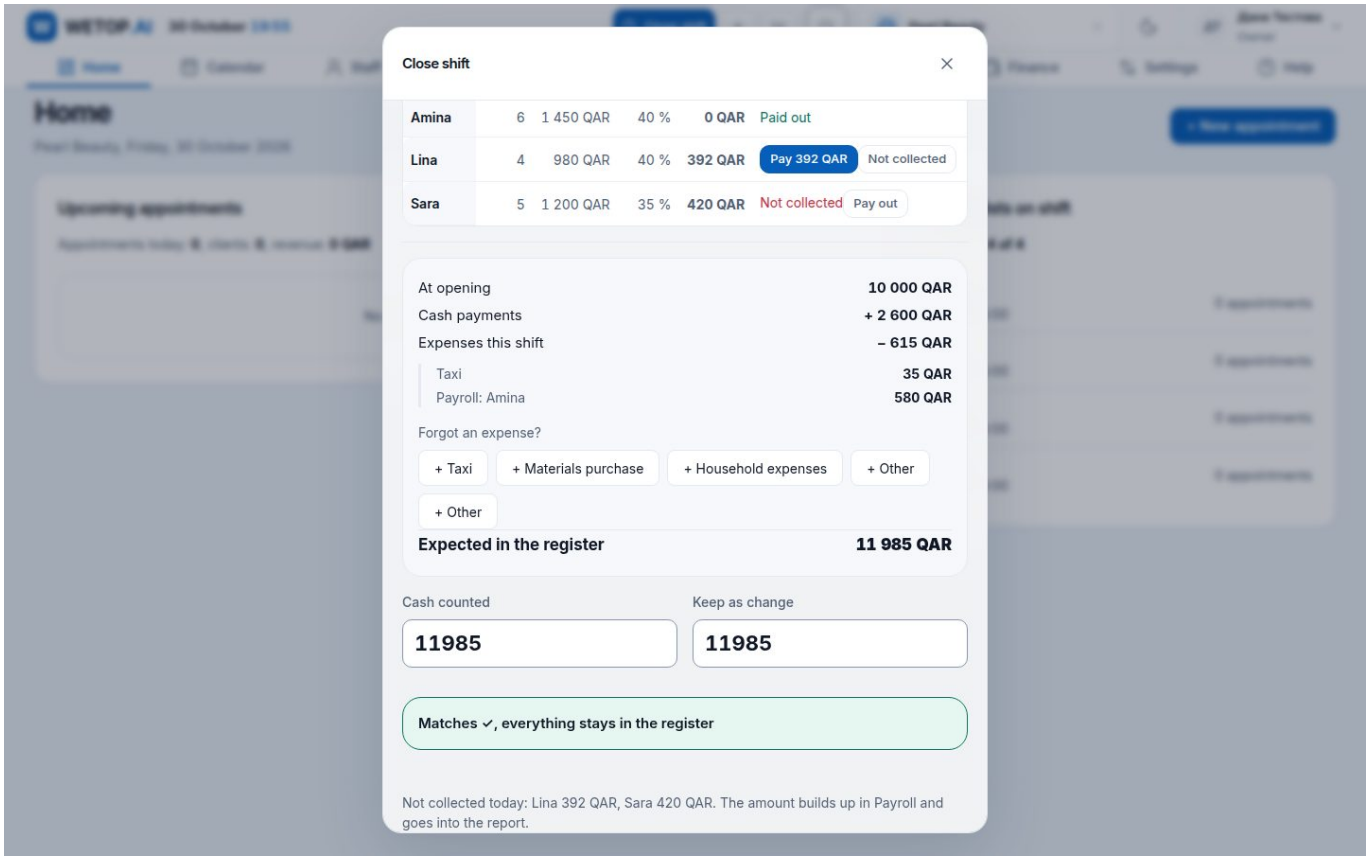

2. If the specialist did not take the money: "Not collected". The amount builds up in Payroll; the window shows "Not collected today" at the bottom.

3. Changed their mind: "Pay out" on the same row.

9. Count and close

1. Enter "Cash counted". It shows a match or the difference with a reason.
2. "Keep as change" and who you hand the rest to.
3. Click "Close shift".

10. Checklist

☐ Morning: "Open shift", count the cash.

☐ Expenses only with a comment.

☐ Evening: "Close shift", pay today's specialists or mark "Not collected".

☐ Count the cash, "Close shift".

☐ Monthly: Payroll, pay the balance to monthly staff.
