20. Promotion
21. Help and support
22. On a phone
23. Daily checklist

1. Menu and where things are

• Top row: Home, Calendar, Staff, Clients, Services, Statistics, Stock, Finance, Settings, Promotion, Help. Sections with an arrow open a list of items.

• On the right of the header: the blue Open shift button (cash desk), "+" for a quick expense or income, the shift summary icon, search, branch switcher, dark theme and the profile menu.

• Staff: Employees, Work schedule, Payroll. Clients: Clients and Bookings. Services: Room inventory. Statistics: Analytics, RNP, All reports. Finance: Finance overview and Cash desk. Settings: All settings, Activity log.

• Profile menu (circle with initials on the right): language, Learning with all guides, sign out.

Tip: If a section is missing from the menu, your role has no access to it. The owner grants rights in Employees → Roles and permissions.

2. Home

• Occupancy and operating metrics: occupancy percent, occupied and available units, units in total, "Occupancy forecast", "Details".

• Today: Check-ins, Check-outs, Awaiting check-in, Awaiting check-out and the amount due from departing guests.

• Needs attention: Unpaid bookings, Needs cleaning, Low occupancy. Click a row to open the list. "All tasks" at the bottom.

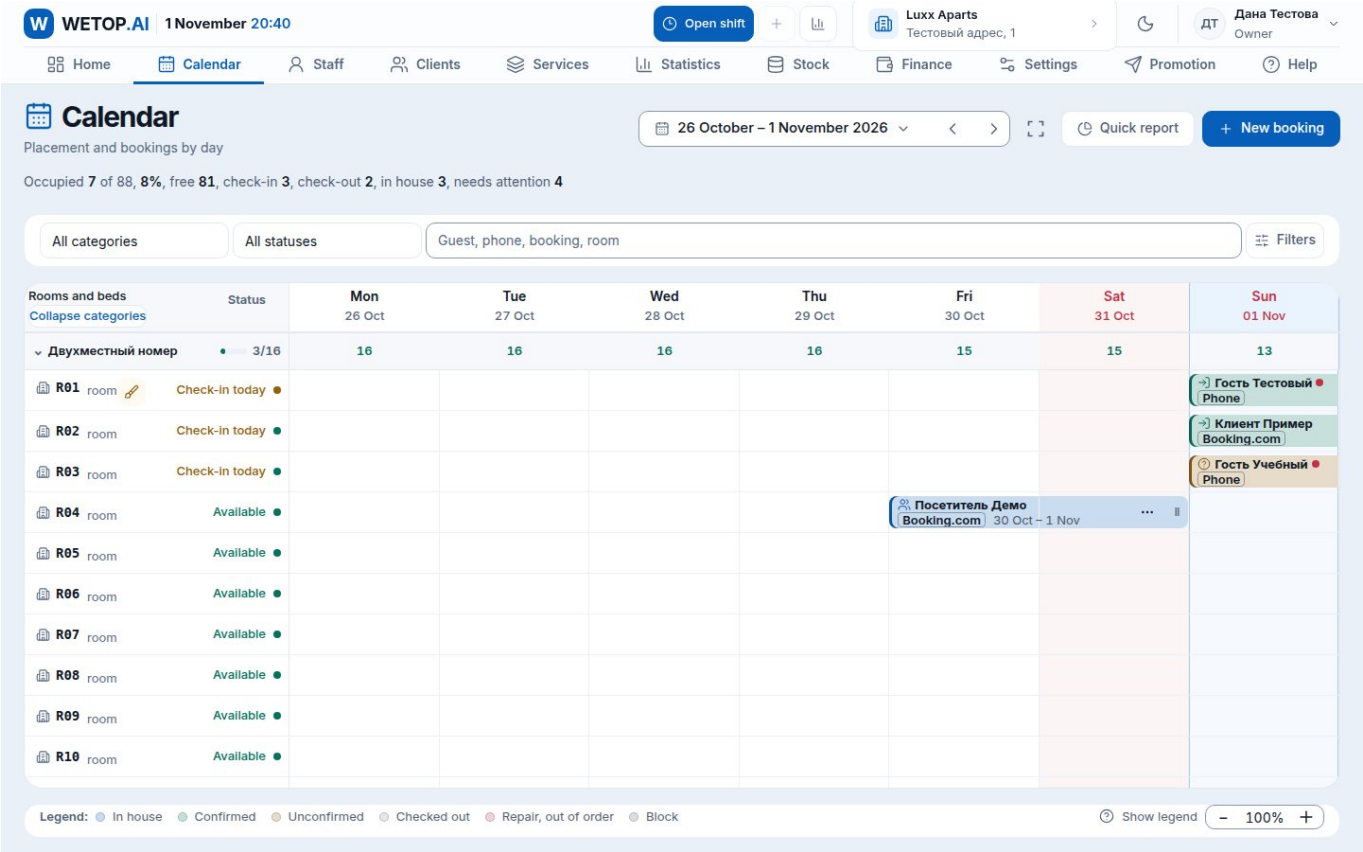

3. Calendar (room grid)

• Rooms and beds by category on the left with their status (Check-in today, Free), days across. A booking is a bar with the guest name.

• At the top, the period: ‹ › arrows and quick "Today", "This week", "This month", "7/14/30 days" or a custom period. Next to it "Quick report" and "New booking".

• Filters: "All categories", "All statuses", search by guest, phone, booking or room, "Filters". The colour legend and zoom are at the bottom.

• To book from the calendar, click a free cell of a room on the needed day.

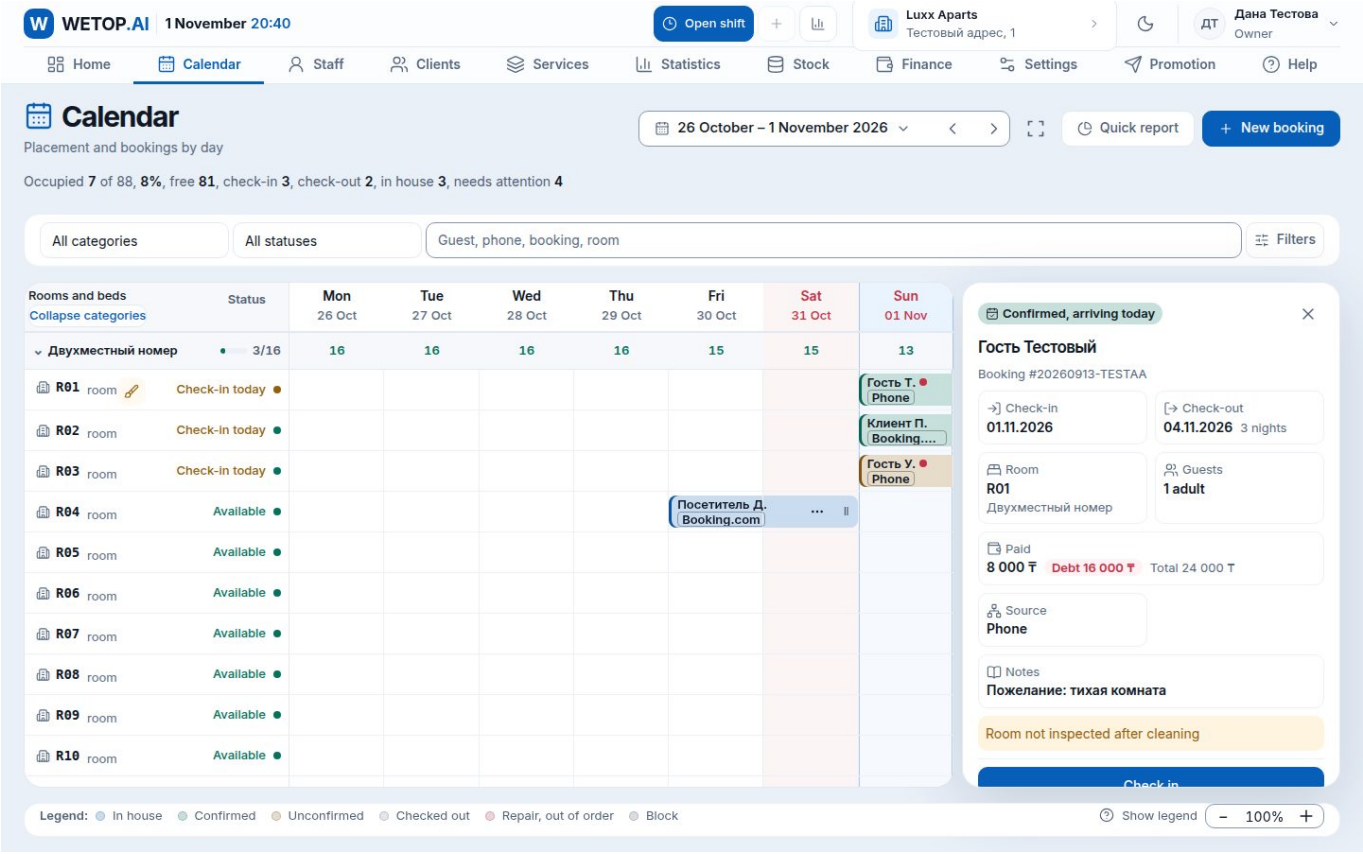

4. Booking card in the calendar

1. Click a booking bar once: the card opens on the right and the calendar stays in place.

2. The card shows status, guest, booking number, check-in and check-out, room, guests, paid, debt and total, source and notes.

3. If the room has not been inspected after cleaning, the card warns you.

4. The button at the bottom depends on the status: Check in on the arrival day, Check out for an in-house guest. A double click opens the full booking. Esc closes the card.

5. New booking

1. "New booking" in the calendar or in the bookings list.

2. Guest: start typing the Phone or name. If the guest stayed before, pick them from the hint; otherwise a new guest is created.

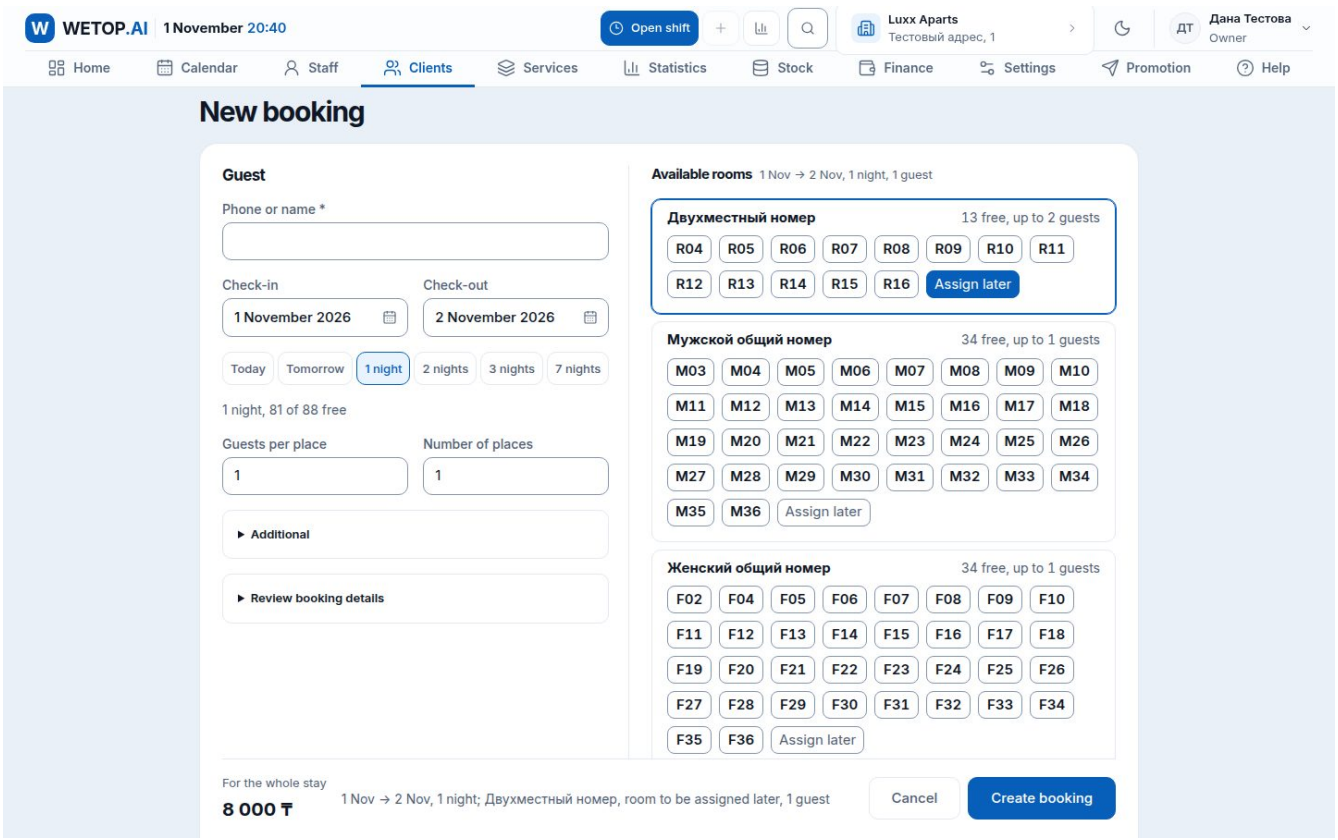

3. Dates: Check-in and Check-out in the calendar or with the quick buttons "Today", "Tomorrow", "1 night", "2 nights", "3 nights", "7 nights".

4. "Guests per place" and "Number of places". "Additional" holds the source, rate and a note.

5. "Available rooms" for these dates on the right, by category: click a room or "Assign later".

6. The total for the whole stay is at the bottom. Click "Review booking details", then Create booking.

Tip: Two people cannot sell the same room for the same dates: the second one gets "Room is occupied for the selected dates".

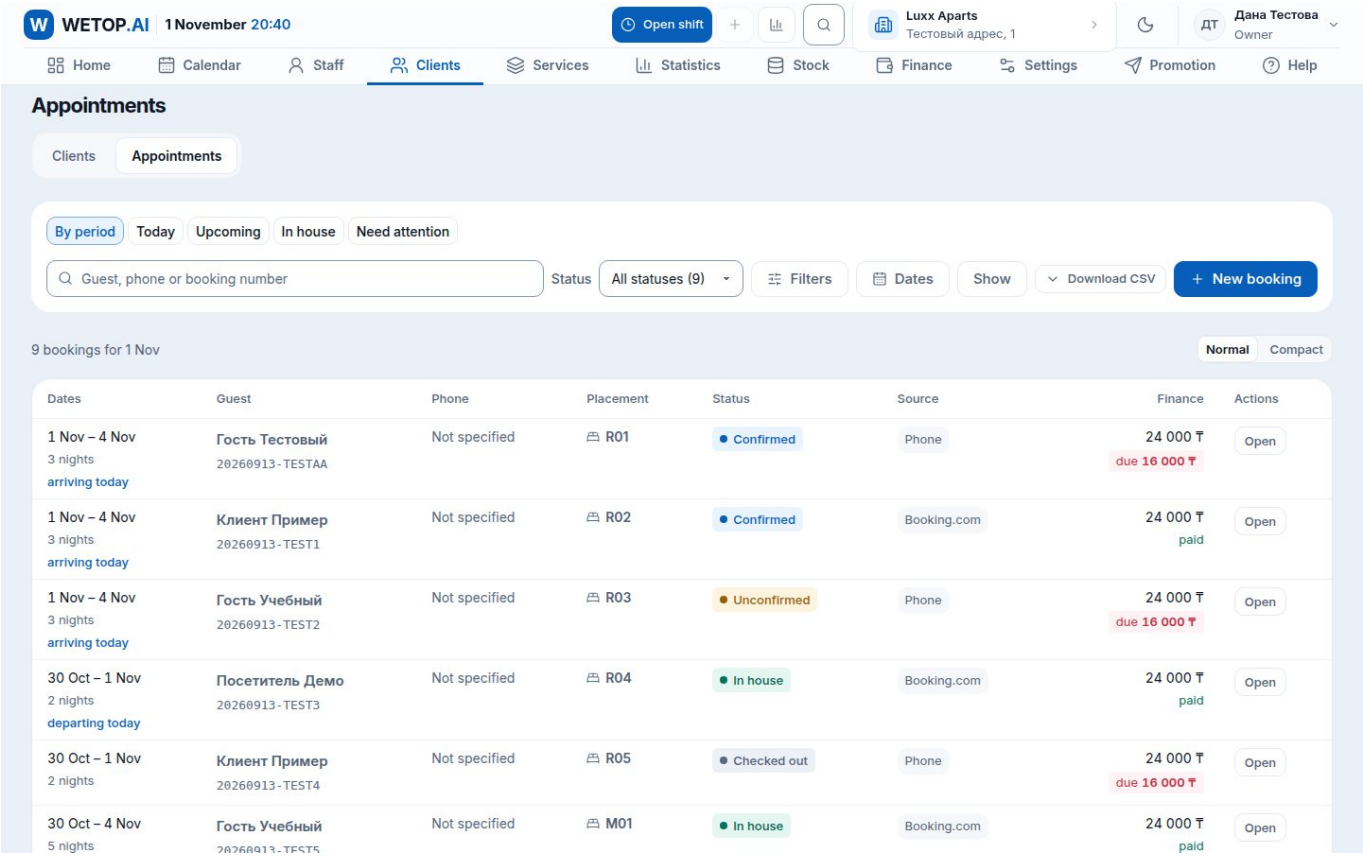

6. Bookings list

• Clients → Bookings. Quick filters: By period, Today, Upcoming, In house, Need attention.

• Search by guest, phone or booking number, "Status", "Filters", "Dates", "Show". "Download CSV" exports the list.

• Each row: dates and nights, guest and booking number, phone, room, status (Confirmed, Unconfirmed, In house, Checked out), source, payment and "Open".

• Row view: "Normal" or "Compact".

7. Booking: payment, extension, printing

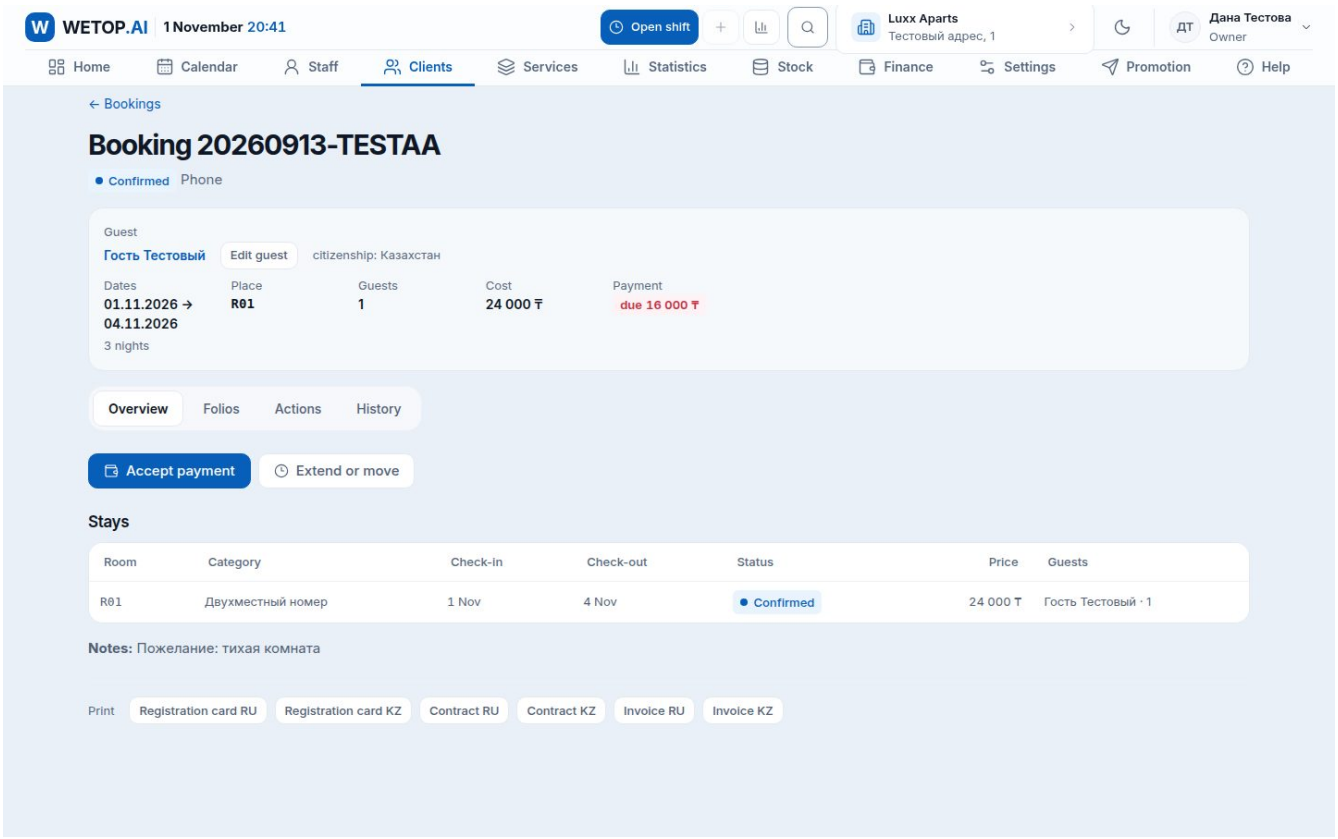

• At the top: booking number, status and source. Below: guest ("Edit guest", citizenship), dates, place, guests, cost and payment.

• Tabs: Overview, Folios (charges and payments), Actions, History of changes.

• Accept payment: amount, method, save. Extend or move: new dates or another room.

• Printing at the bottom: Registration card, Contract and Invoice, each in Russian (RU) and Kazakh (KZ).

Tip: In Kazakhstan, guest citizenship is required for check-in: if it is missing, WETOP asks for it before "Check in".

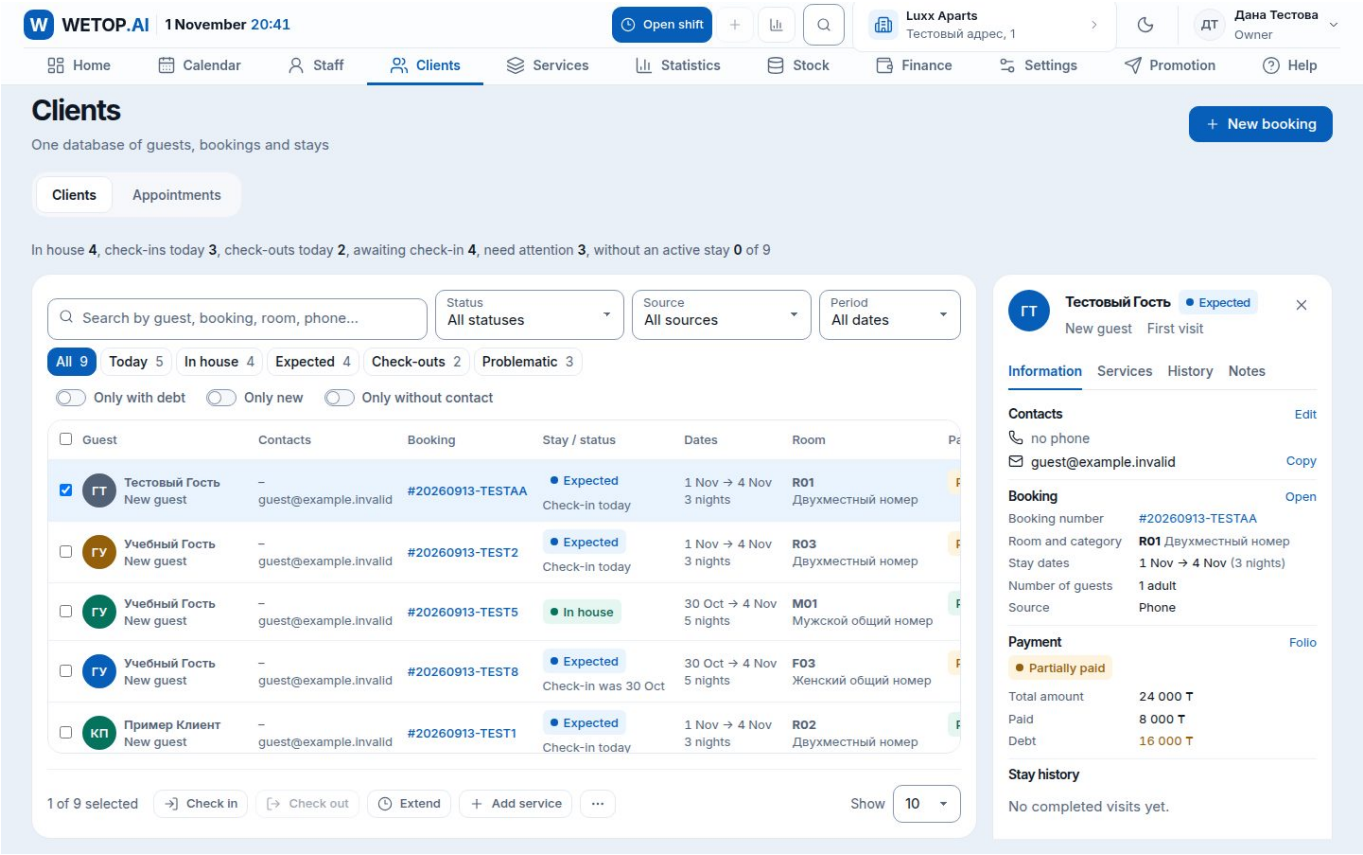

8. Clients

• One base of guests, bookings and stays. The line at the top: in house, check-ins and check-outs today, awaiting check-in, need attention.

• Search, "Status", "Source", "Period". Filters: All, Today, In house, Expected, Check-outs, Problematic; switches "Only with debt", "Only new", "Only without contact".

• Click a guest: the card on the right has Information, Services, History and Notes tabs with contacts, booking, payment and debt, stay history.

• Tick a guest: "Check in", "Check out", "Extend", "Add service" appear at the bottom.

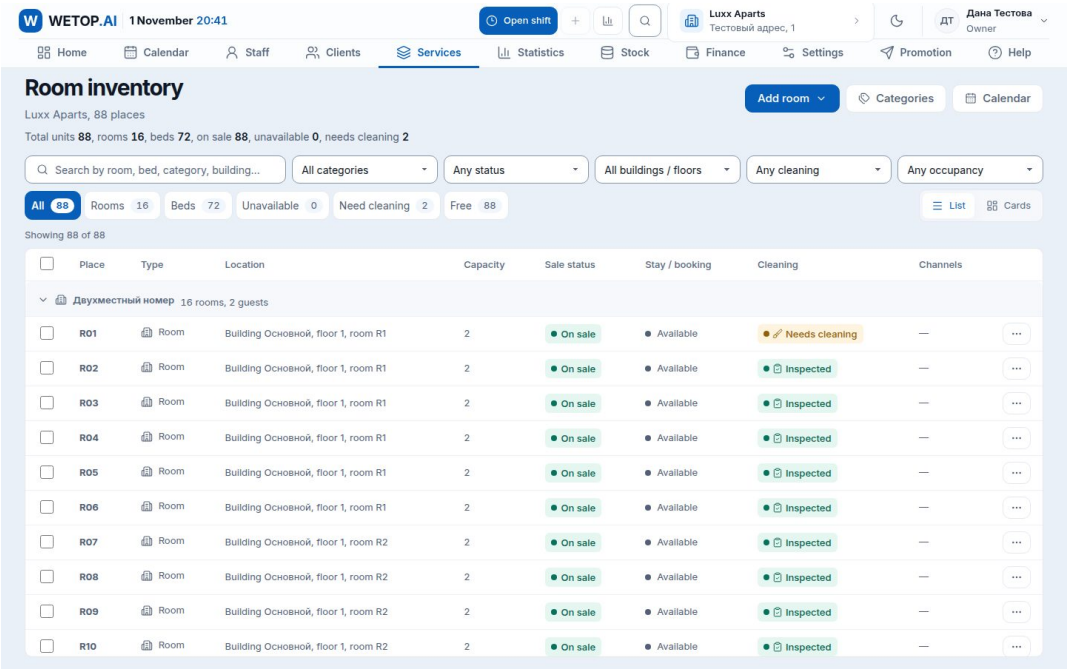

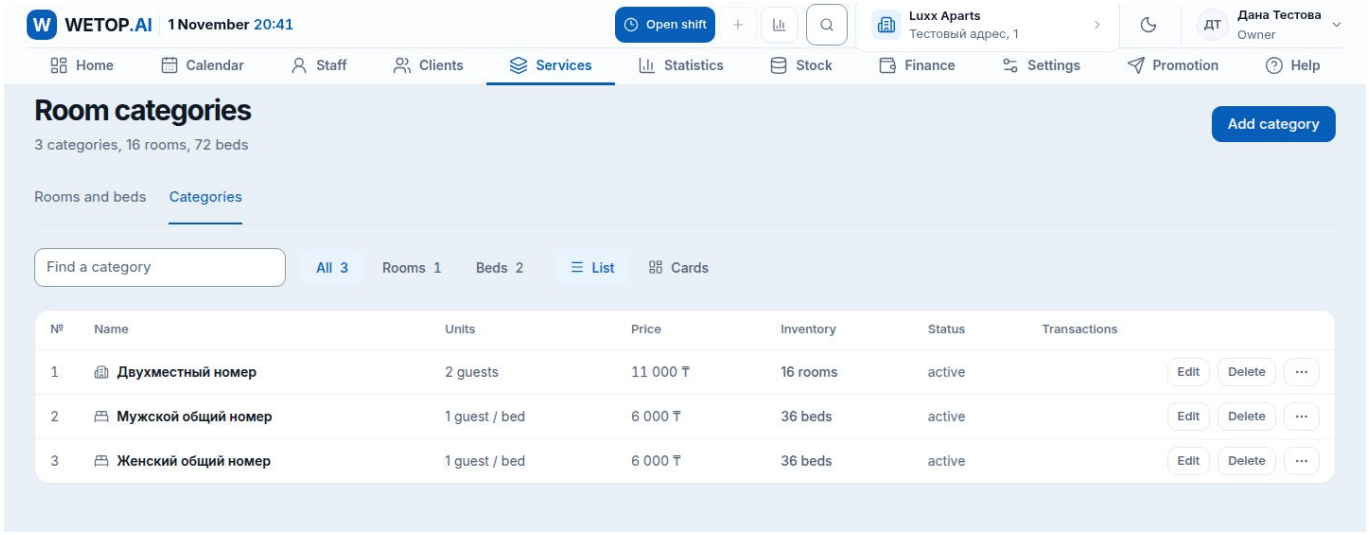

9. Room inventory and categories

• Services → Room inventory: all rooms and beds. Filters: All, Rooms, Beds, Unavailable, Need cleaning, Free.

• Each row: type, location, capacity, sale status, who stays or the booking, cleaning ("Needs cleaning", "Inspected"), channels.

• Add room: a room, a room with beds or a category. "Categories" opens the category list: name, places, price, "Edit".

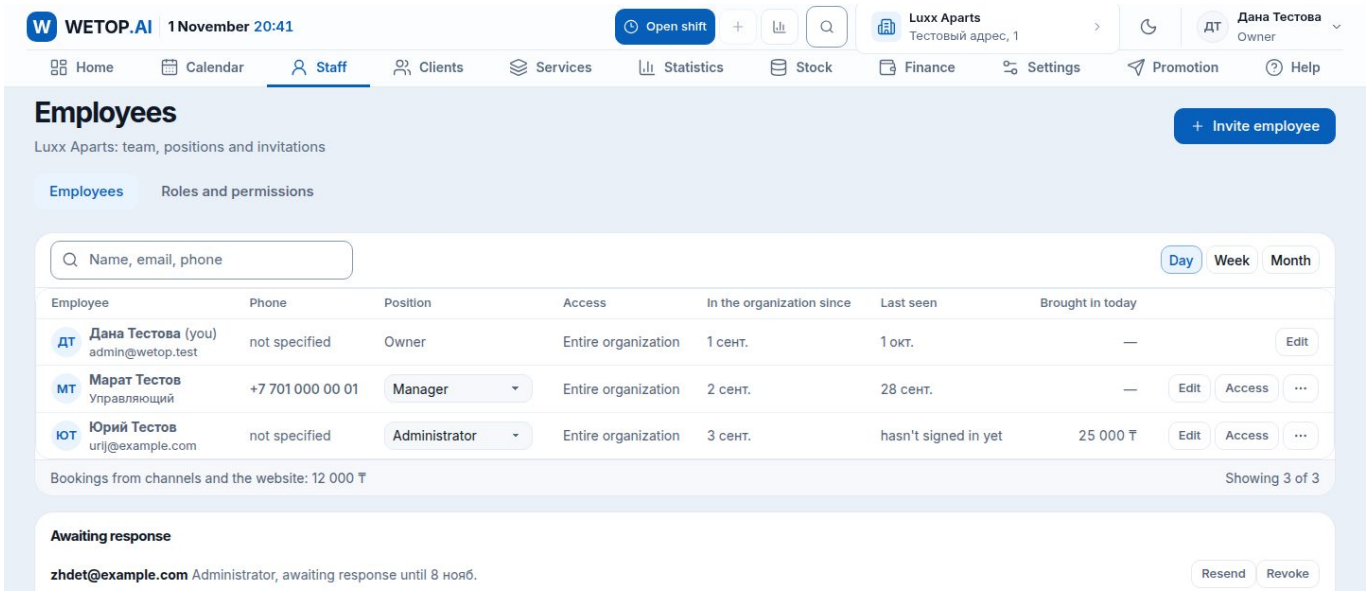

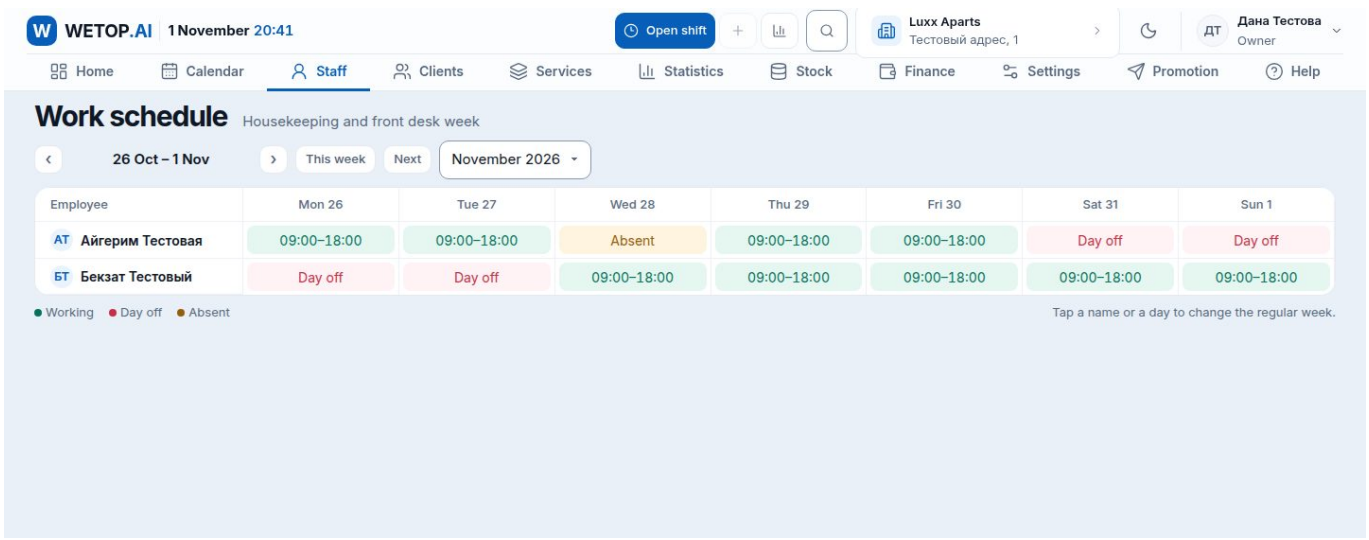

10. Staff: employees and schedule

• Staff → Employees: phone, position, access, last seen. "Invite employee" sends a link; invites wait in "Awaiting response" with "Resend" and "Revoke".

• "Roles and permissions": what each position can see.

• "Work schedule": the week by employee, "This week", "Next", a month list. Click a name or a day to change a shift, day off or absence.

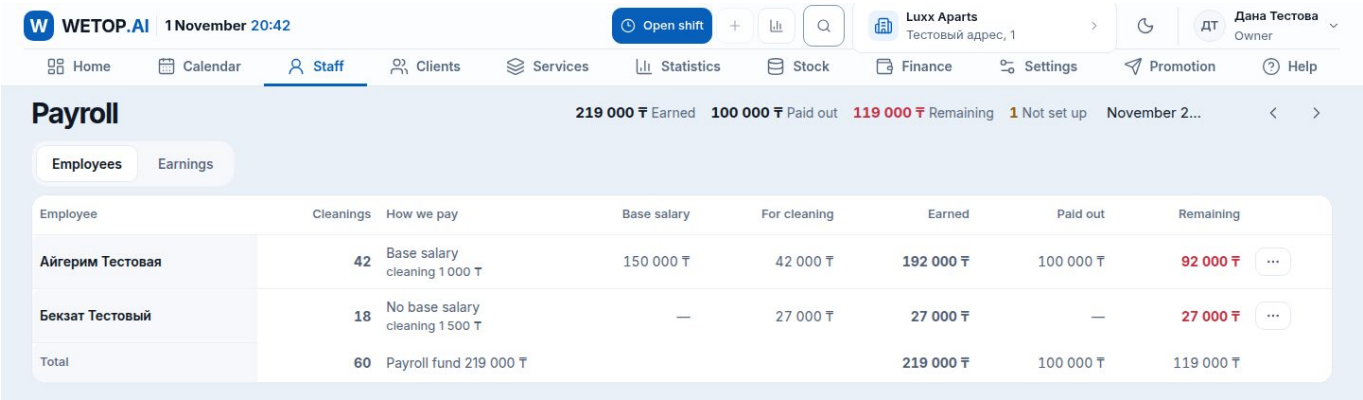

11. Payroll

• At the top for the month: Earned, Paid out, Remaining. Switch the month with ‹ ›.

• Each employee row: cleanings, how we pay (base salary and/or per cleaning), base salary, for cleaning, earned, paid out, remaining. Total and payroll fund at the bottom.

• "..." on the row: pay terms and payout. The "Earnings" tab lists every accrual.

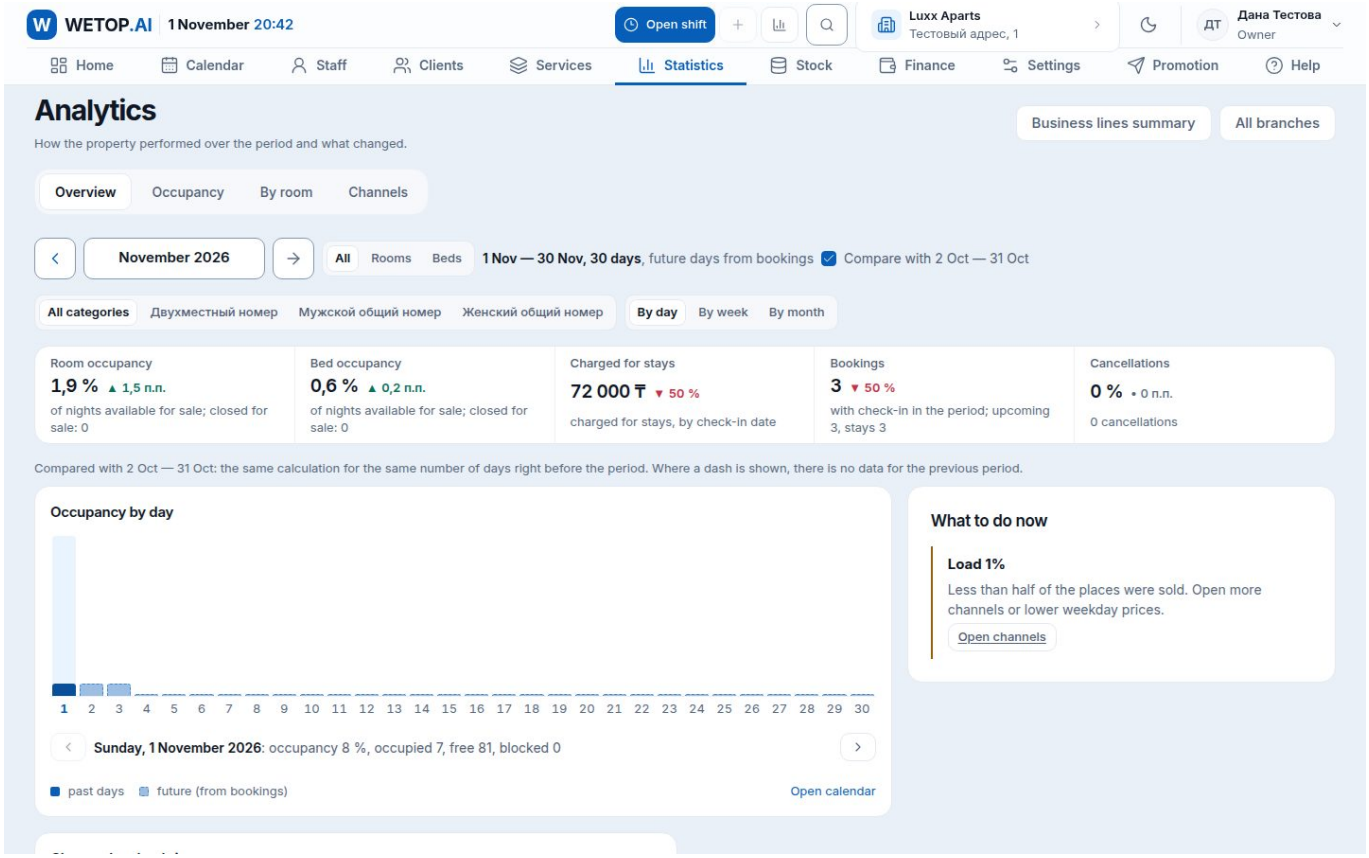

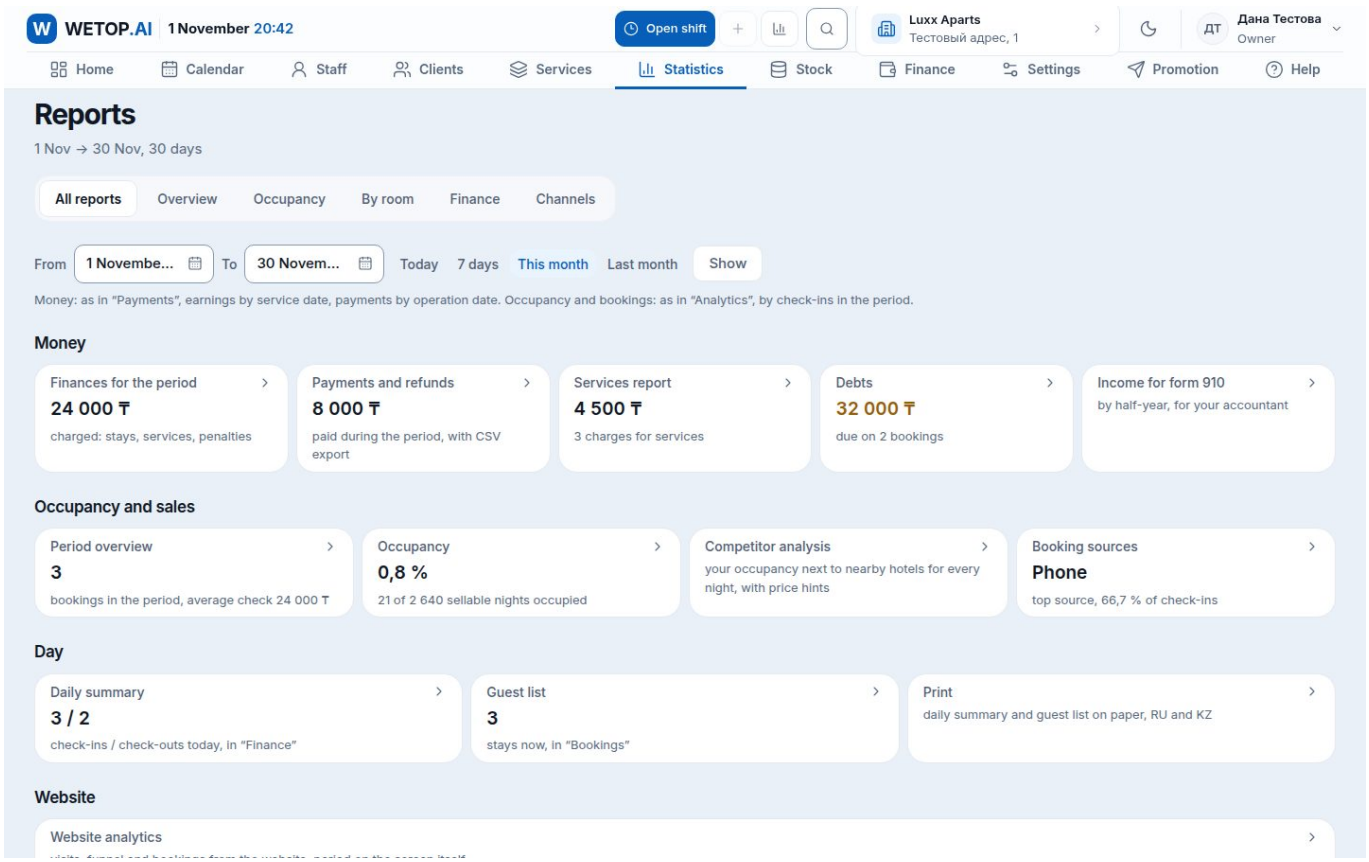

12. Statistics: analytics and reports

• Analytics: Overview, Occupancy, By room, Channels tabs. Month ‹ ›, comparison with the previous period. Tiles: room and bed occupancy, accommodation charged, bookings, cancellations. "Occupancy by day" and the "What to do now" tip.

• RNP: every day of the month as a row, revenue and bookings up to today, period total.

• All reports: period and "Show". Money (finance for the period, payments and refunds, services, debts, income for form 910), Occupancy and sales, Day (day summary, guest list), Website.

13. Finance and cash desk

• Finance: period in the calendar and with arrows, "Export". The line: total income, payments received, refunds, expenses, net profit, account balance.

• Chart of payments, refunds and expenses, income breakdown (stay, services), recent transactions and expenses by category.

• The hotel Cash desk is the "Cash desk" tab inside Finance. The blue "Open shift" in the header opens the shift, "+" adds an expense (comment required), the summary icon shows the shift money, "Close shift" in the evening.

14. Opening and closing the shift

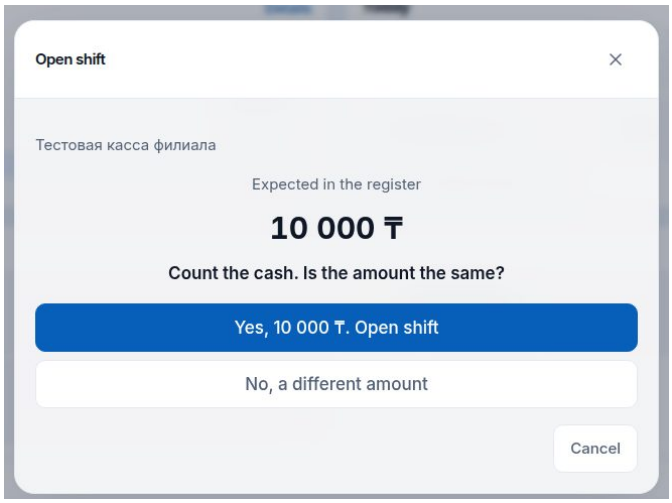

• The cash desk works in shifts: open it in the morning, close it in the evening. The shift button is always in the header: the blue Open shift when the shift is closed and Close shift when it is open. Next to it: "+" for an expense and the "Shift summary" icon.

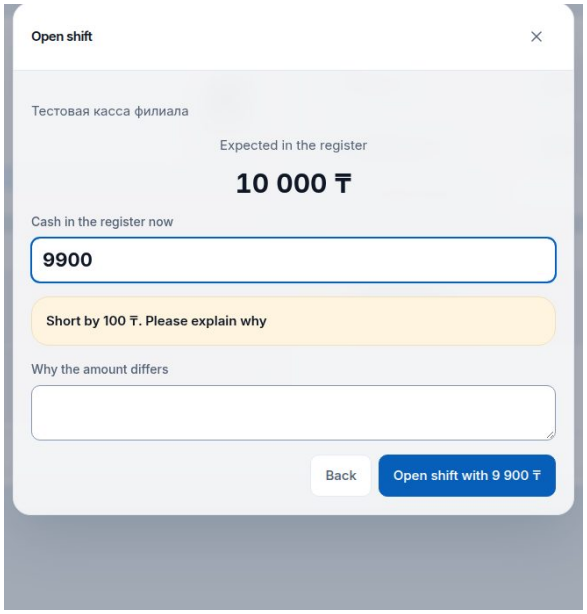

Open the shift

1. Click Open shift. The window shows "Expected in the register": the change left when the previous shift was closed.

2. Count the cash. If it matches: Yes, ... Open shift.

3. If not: No, a different amount. Enter the cash you have now; WETOP shows the difference ("Short by 100 ₸"). Write why the amount differs and click "Open shift with ...".

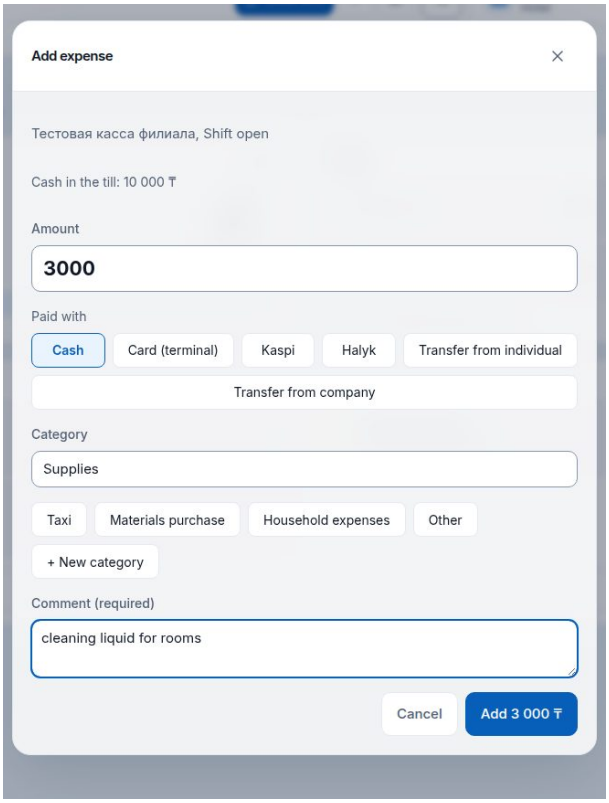

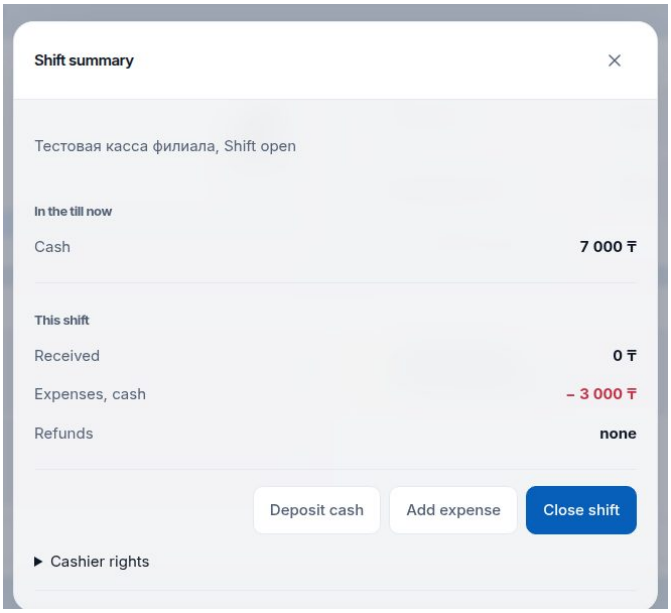

Cash expense and shift summary

1. "+" in the header → Add expense: amount, paid with, category (a button or your own), a comment is required. Click "Add ...".

2. Shift summary: cash in the till now, received this shift, expenses and refunds. "Deposit money", "Add expense" and "Close shift" are here too.

Close the shift

1. Click Close shift. The window adds up: at opening, plus cash payments, minus the shift expenses (each on its own line) = Expected in the register.

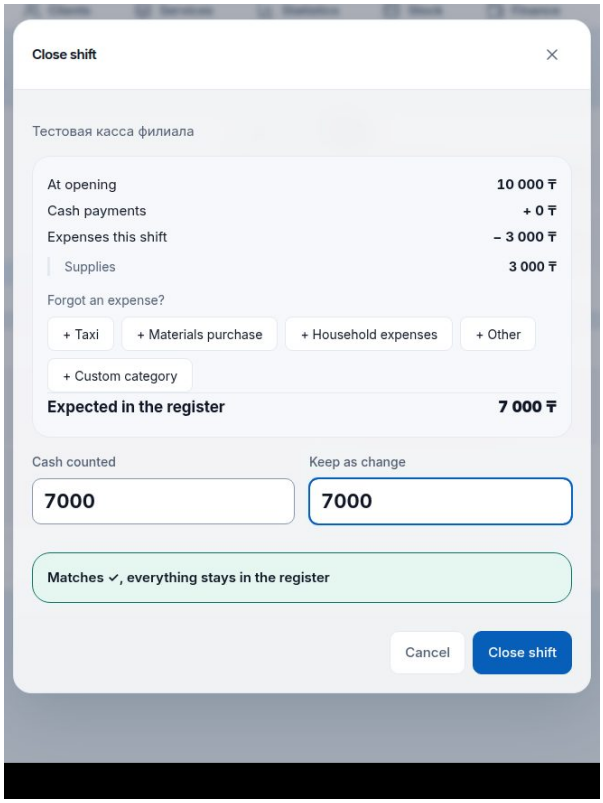

2. Forgot an expense? Click a frequent category or "+ Custom category" right in the window; the total is recalculated.

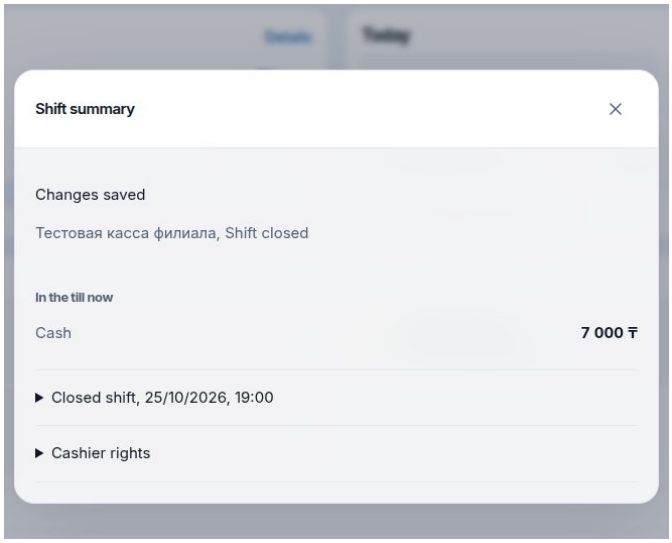

3. Enter Cash counted. If it matches: "Matches ✓". If not, WETOP shows the difference and asks for the reason.

4. Keep as change: what stays in the till for tomorrow. Hand over the rest and say to whom.

5. Click Close shift. The closed shift summary opens and the header button turns back into "Open shift".

Tip: There is one shift per branch till: if the morning administrator opened it, whoever is at the desk in the evening closes it. All openings, expenses and closings are in the Activity log.

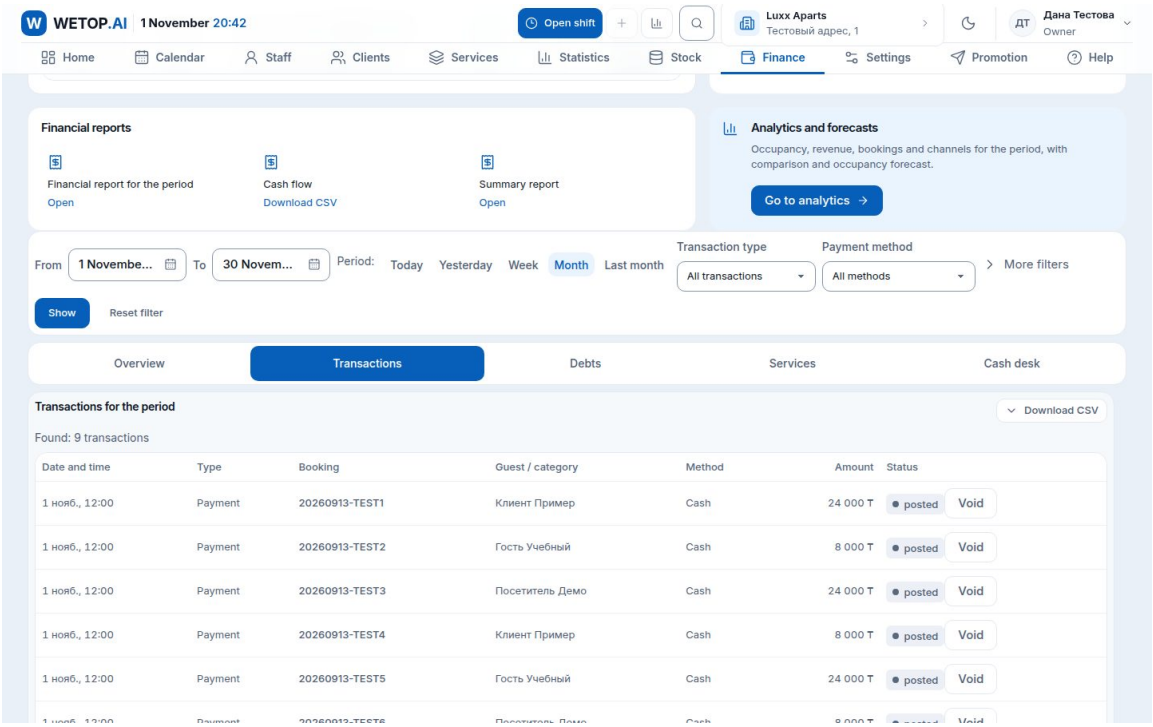

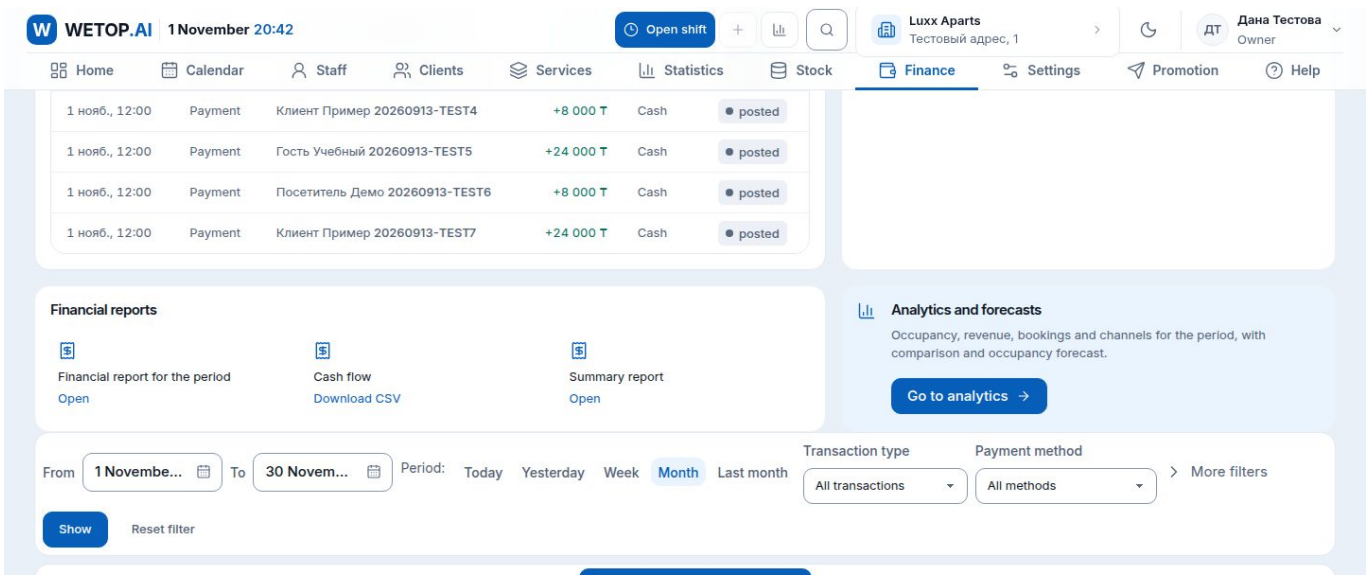

15. Transactions and debts

• Transactions tab: all payments, refunds and expenses for the period, filtered by type and method. A wrong one can be voided; it stays in the history.

• Debts tab: bookings with a balance to collect, "Overdue" filter. Each row: charged, paid, balance, "Accept payment" and "Open".

• Both tables export with "Download CSV".

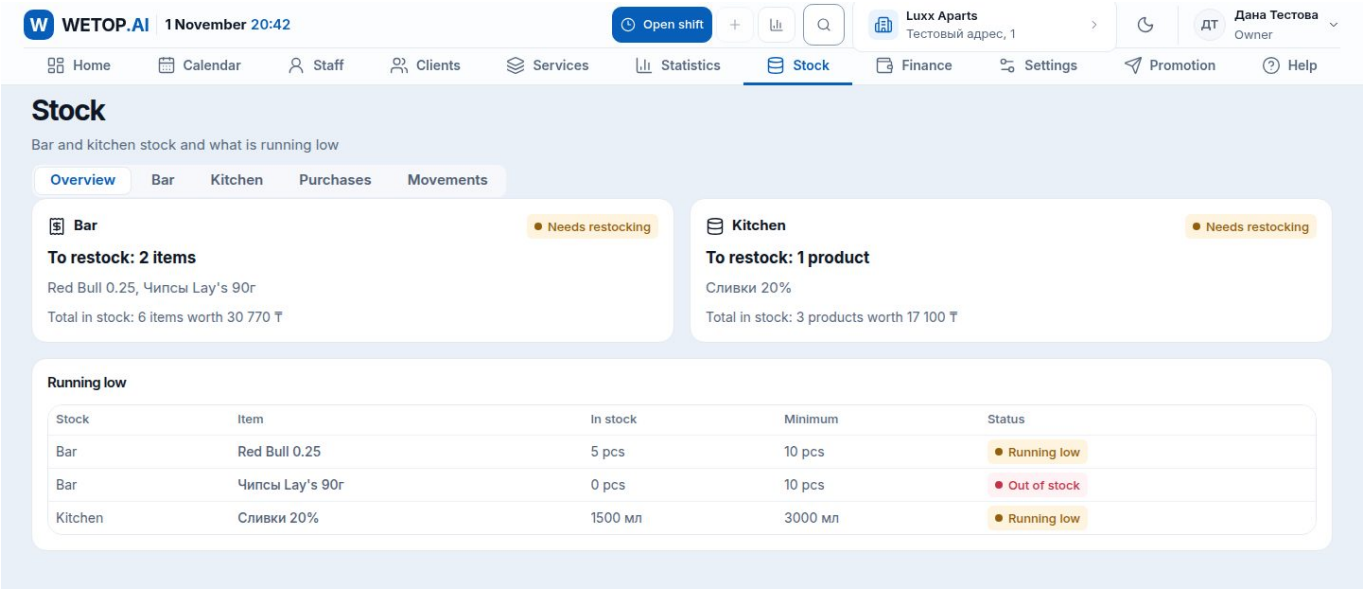

16. Stock

• Tabs: Overview, Bar, Kitchen, Purchases, Movements. Overview shows what to restock and the "Running low" list with stock and minimum.

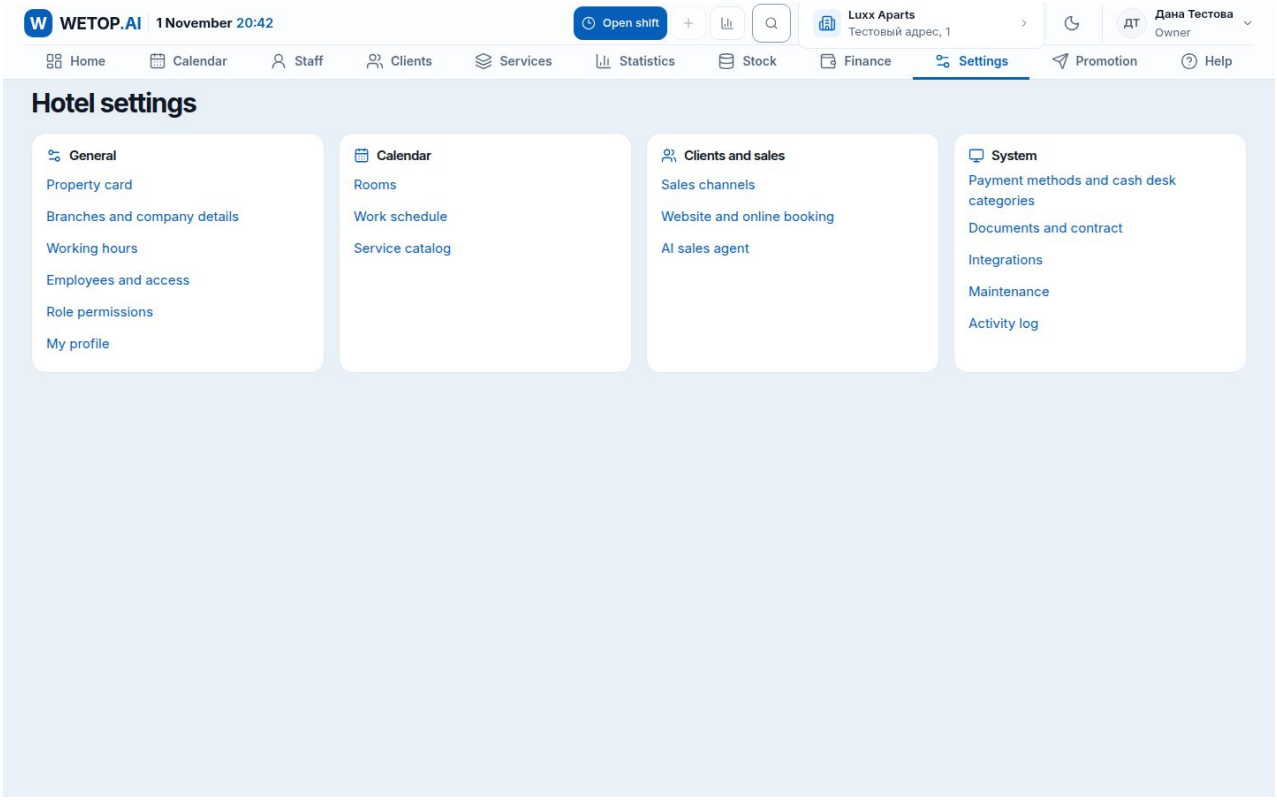

• Bar and minibar sales are added to the guest as a service in the booking and deducted from stock.

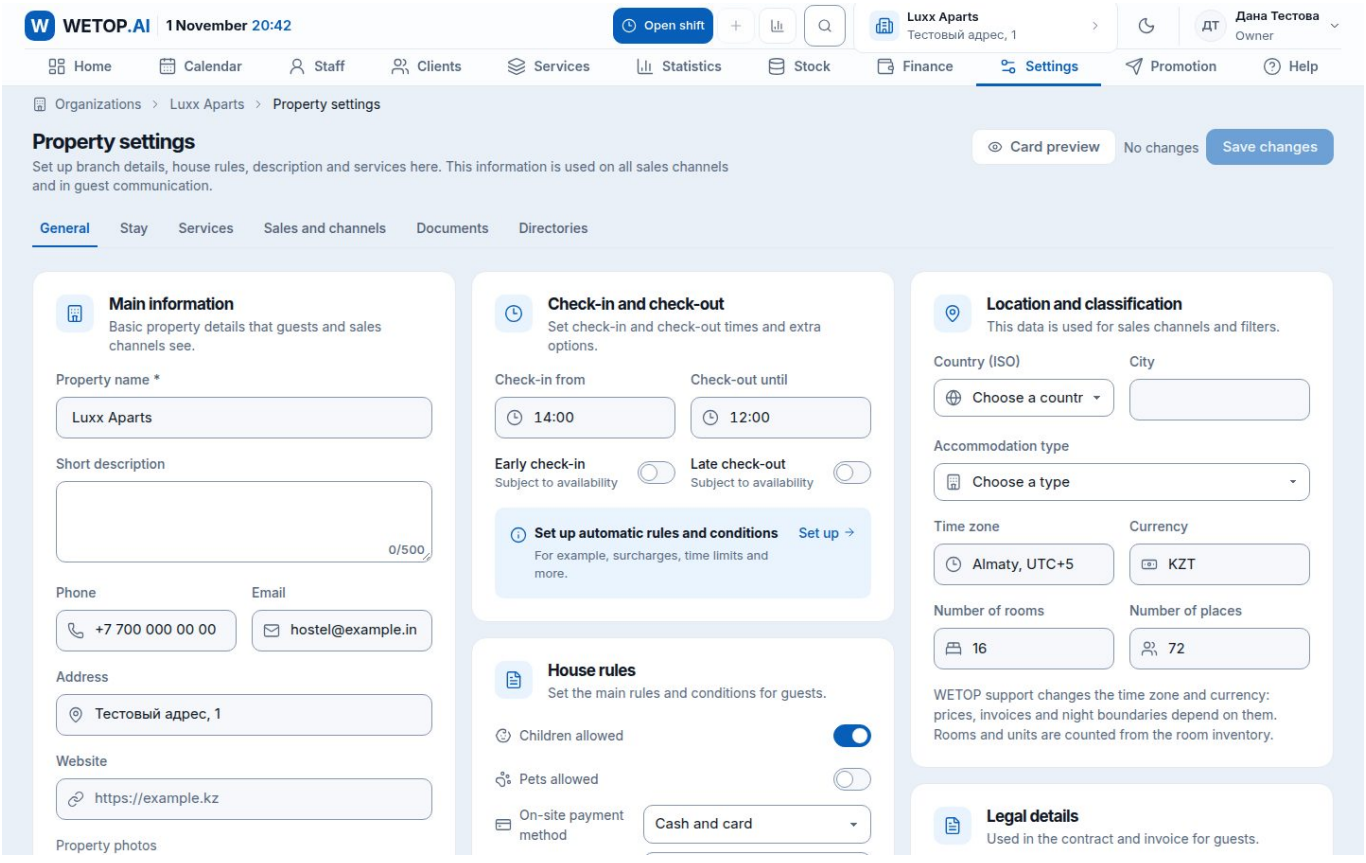

17. Settings

• "All settings": General (property card, branches, opening hours, employees and access, role permissions, profile), Calendar (rooms, schedule, service catalog), Clients and sales (channels, website and online booking, AI seller), System (payment methods and cash categories, documents, connections, incidents, log).

• "Property settings": General, Stay, Services, Sales and channels, Documents, Directories tabs. Check-in and check-out time, early check-in and late check-out, house rules, country, time zone, currency. "Save changes" after edits.

WETOP support changes the time zone and currency: prices, invoices and night boundaries depend on them. Rooms and units are counted from the room inventory.
Legal details
Used in the contract and invoice for guests.

18. Sales channels

• Tabs: Overview, Channels, Connection setup, Mapping, Sync, Events.

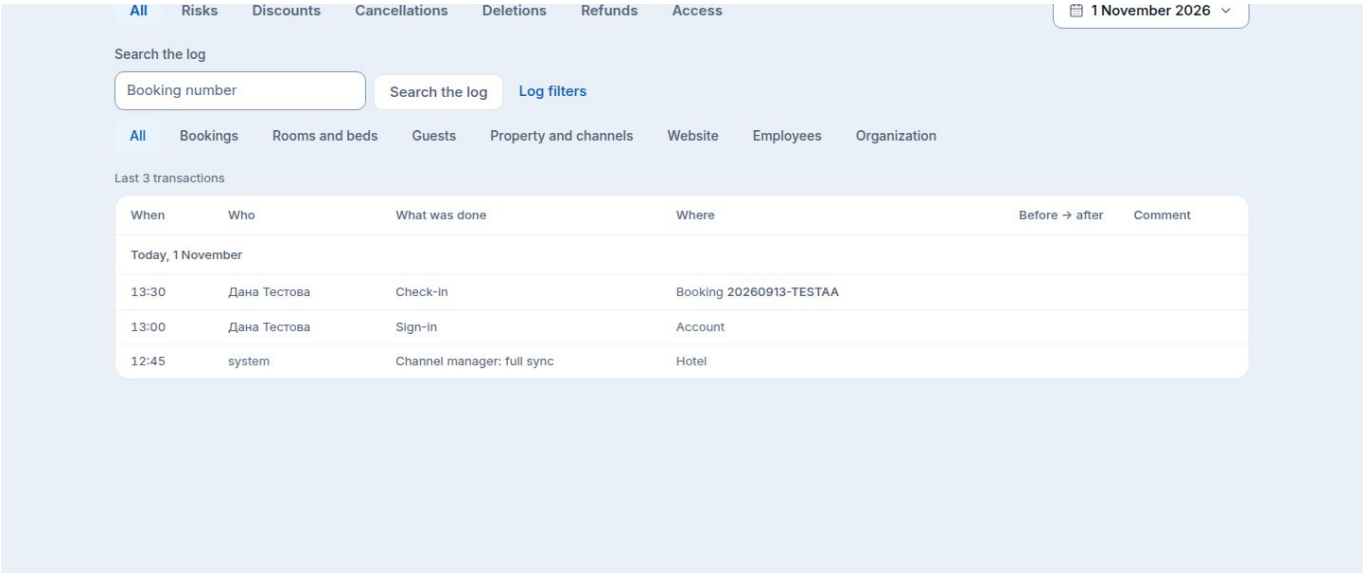

• At the top, the exchange status: last exchange, queue, errors, booking intake. "Bookings by source": Booking.com, Trip.com, website, front desk, cancellations, no-shows and the share of each.

19. Activity log

• Settings → Activity log: who changed what and when. Tabs All, Risks, Discounts, Cancellations, Deletions, Refunds, Access; date in the calendar, search by booking number.

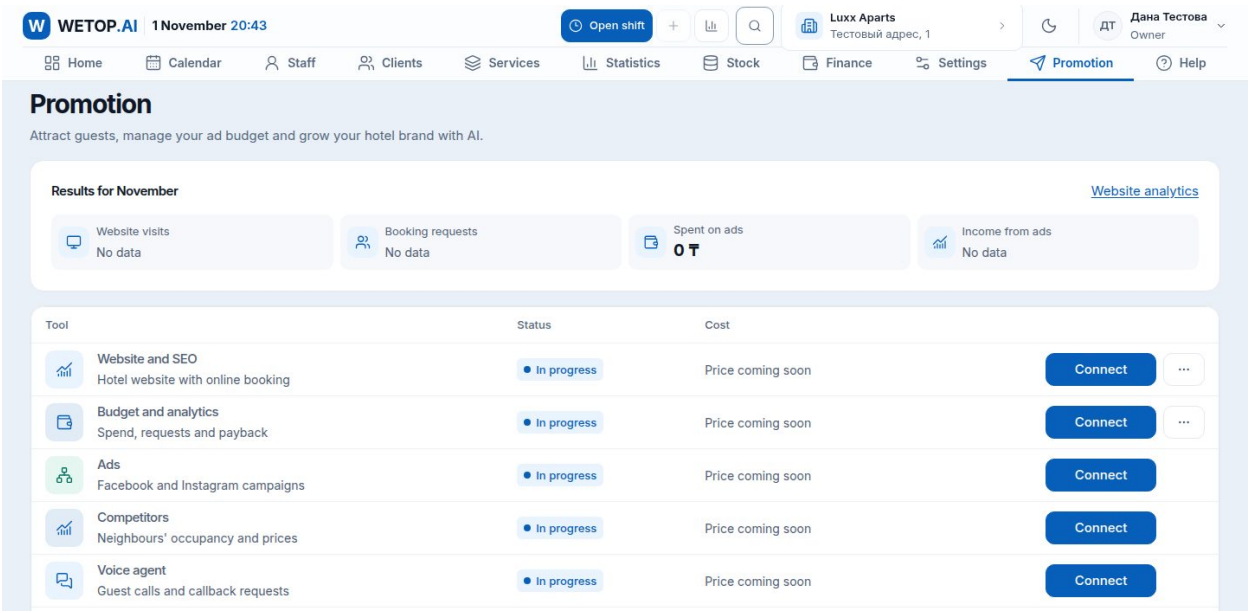

• Each row: when, who, what was done, where, "before → after" and the comment. Handy for checking discounts, cancellations and payment edits.

20. Promotion

• Promotion: results of the month (website visits, booking requests, ad spend, ad income) and tools: website and SEO, budget and analytics, ads, competitors, voice agent, AI seller, content. Each has a "Connect" button.

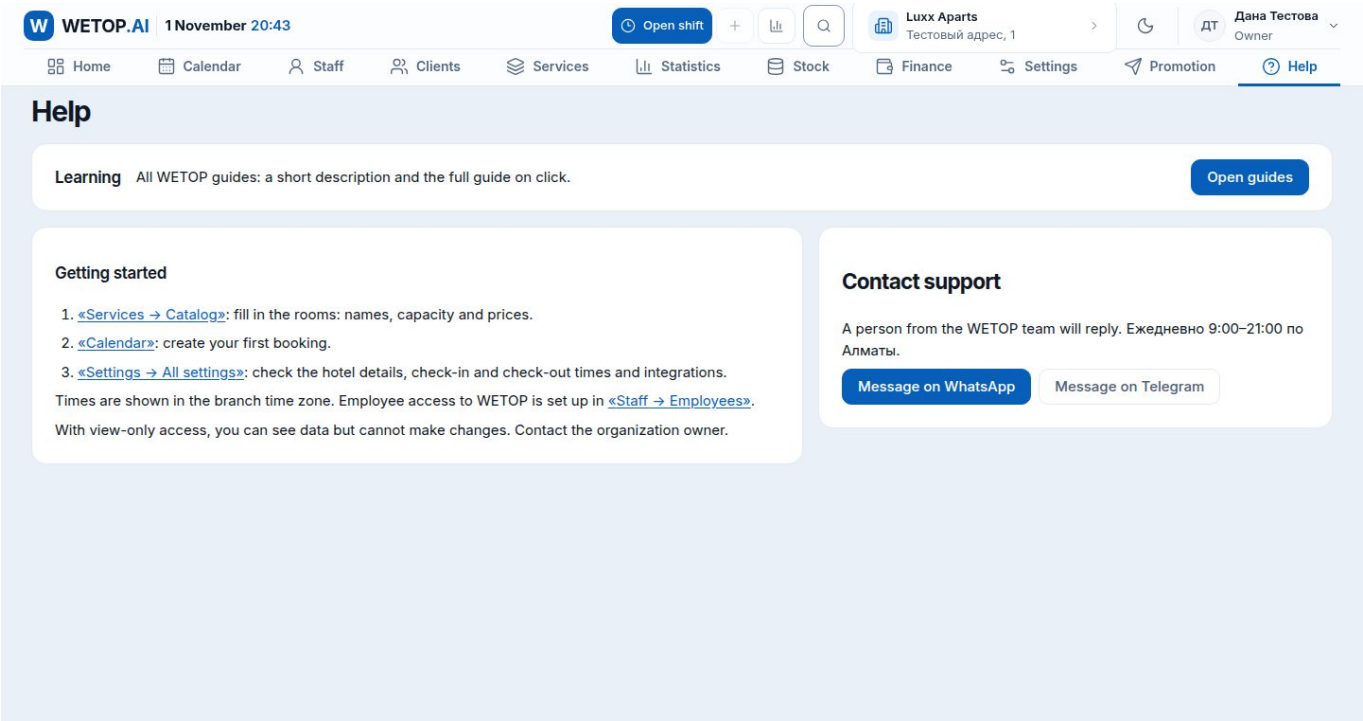

• Competitor analysis: add nearby hotels; WETOP tracks their occupancy and suggests a price.

21. Help and support

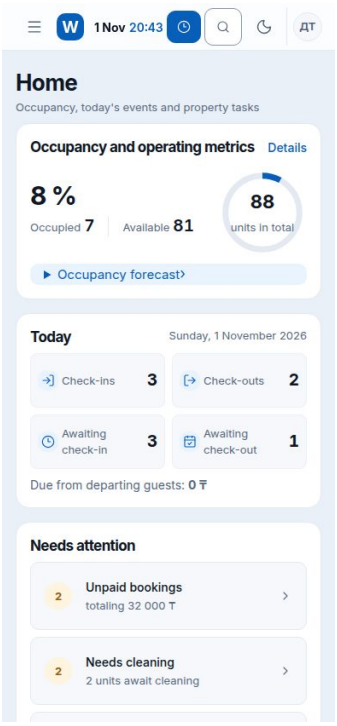

• Help: the Learning block with "Open guides", first steps and "Contact support".

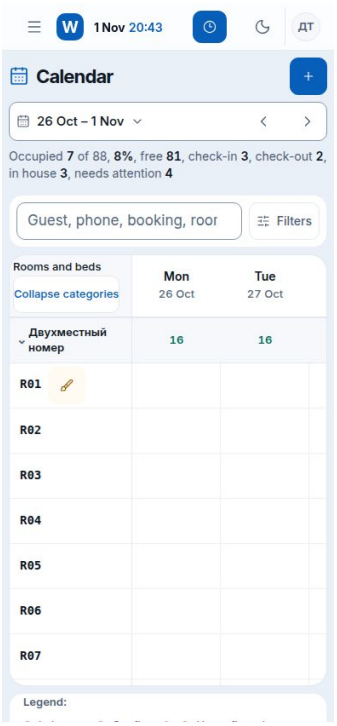

• Support: a person from the WETOP team answers, daily from 9:00 to 21:00 Almaty time. Buttons "Message on WhatsApp" and "Message on Telegram".

22. On a phone

• WETOP works in the phone browser: home and the calendar fit the screen width, the menu folds into a button.

23. Daily checklist

☐ Morning: "Open shift", count the cash.

☐ Home: check-ins, check-outs, "Needs attention".

☐ Calendar: today's arrivals, rooms "Inspected" after cleaning.

☐ Check-in: citizenship and payment, "Check in".

☐ New bookings: "New booking" or from a calendar cell.

☐ Check-out: booking balance, "Accept payment", "Check out".

☐ Cash expenses only with a comment.

☐ Finance → Debts: bookings with a balance.

☐ Evening: "Close shift", count the cash.

☐ Monthly: Payroll, Statistics → All reports.
